Sports Spectators:

Sports Spectators Allen Guttmann, 1986 In his previous books Allen Guttmann has provided incisive perspectives on Avery Brundage's role in the Olympic movement and on the nature of modern sports. Now in his latest book the accomplished historian of sport turns his attention from the playing field to the grandstand. *Sports Spectators* the first historical study of the subject from antiquity to today is at once erudite and entertaining comprehensive and succinct. Guttmann first examines the history of sports spectators starting with Ancient Greece and Rome. He then moves on to the Renaissance and traces three early sports the tournament archery and early versions of football. The author then focuses on the emergence of sports in post Renaissance England and discusses the curious spectacle of animal sports bear and bull baiting and cockfighting as well as the first appearance of combat sports such as sword fighting stick fighting and boxing. The book concludes its historical view by exploring contemporary baseball football rowing tennis and golf. From his chronological narrative Guttmann shifts to detailed analysis of the economic sociological and psychological aspects of sports spectatorship. Who were and are sports spectators? What is their gender and social class? Have they normally been participants as well as fans? What are the political functions of sports watching? What are the social dynamics of spectatorship? Guttmann provides fresh insights which will be useful to scholars and fascinating to everyone. *Sports Spectators* also looks at the dramatic transformations radio and television have made and offers an incisive critique of today's sports related violence including the increasingly frequent incidences of spectator hooliganism. How violent or peaceful have spectators traditionally been? Has spectator violence increased or decreased? You needn't be a season ticket holder to enjoy *Sports Spectators*. Allen Guttmann makes the history of fandom come alive for any reader interested in Western culture and what forms of entertainment reveal about us as well as those concerned with the recent growth of spectator violence.

Spectator sports fan behavior is vast and represents one of society's most universal leisure activities. While event attendance and media consumption received a great deal of attention from scholars there is a growing understanding that sports fans interact both physically and digitally with their favorite teams in numerous other ways. At the same time research also demonstrated a positive relationship between fan identification and self esteem. Thus the aim of this Research Topic is to explore fan behaviors in many different areas involving sports media and the ever changing digital environment.
