Wallace Stevens and the Seasons George S. Lensing, 2004-04-01 This fruitful pairing of literary and biographical interpretation follows Wallace Stevens's poetry through the lens of its dominant metaphor the seasons of nature and illuminates the poet's personal life experiences reflected there From Stevens's first collection *Harmonium* 1923 to his last poems written shortly before his death in 1955 George S. Lensing offers clear and detailed examination of Stevens's seasonal poetry including extensive discussions of *Autumn Refrain* *The Snow Man* *The World as Meditation* and *Credences of Summer* Drawing upon a vast knowledge of the poet Lensing argues that Stevens's pastoral poetry of the seasons assuaged a profound and persistent personal loneliness An important scholarly assessment of a major twentieth century modernist

Wallace Stevens and the Seasons also serves as an appealing introduction to Stevens

The Genres of Thomson's The Seasons Sandro Jung, Kwinten Van De Walle, 2018-09-01 Critics since the eighteenth century have puzzled over the form of James Thomson's composite long poem *The Seasons* 1730 1744 1746 its generically hybrid make up and its relationship to established genres both Classical and modern The textual condition of the work is complicated by the fact that it started as a stand alone poem *Winter* 1726 but was subsequently expanded as part of a revision process that lasted almost two decades through the addition of three further seasons poems Transforming from primarily devotional poem to georgic account of the role of man's laboring role in the creation the meaning of *The Seasons* shifted with each addition of new material Each revision introduced diverse subject matter while existing material was reorganized and occasionally moved from one season installment to another

The Genres of Thomson's The Seasons is the first collection of essays exclusively devoted to the study of the work's formal heterogeneity polyvocality and polygeneric character All contributions examine the different modes descriptive reflective pastoral hymnal amatory epic georgic dramatic discourses political sentimental scientific and kinds that cooperate to make up the different installments and variants of *The Seasons* They probe the multifarious interactions between different genres and modes and how a renewed focus on the form of Thomson's long poem will result in an understanding of the processual character of *The Seasons* as a synthesizing simulacrum of various discourses and theories of composition The volume's essays map the generic anatomy of the poem in its different incarnations They shed light on the poet's conception of the descriptive long poem and his engaging with formal traditions that would have enabled contemporaneous readers to conceive of *The Seasons* as an assimilating and learned work to be read through both the works of the Classics and moderns Contributions revisit models explaining the structural complexity of *The Seasons* proposing

others in their stead and consider Thomson as the author of a long poem in relation to other poets both English and in a transnational study Swedish The poem is furthermore contextualized in terms of sexuality and animal studies The Unfolding of The Seasons Ralph Cohen, 2021-12-29 First published in 1970 The Unfolding of The Seasons provides an interpretation and evaluation of James Thomson's poem The Seasons Professor Cohen urges its reconsideration as a major Augustan poem arguing that Thomson's unity of diction and thought combine with a conception of man, nature and God which is poetically tenable and distinctive The case for The Seasons as an important work of art depends upon its effectiveness as a moving vision of human experience and Professor Cohen believes that many critics have not felt this effectiveness because they have misconceived Thomson's vision and misunderstood his idiom His study aims to persuade them to return to the poem and to examine it within the context of an Augustan tradition Professor Cohen shows that Thomson's great achievement is to have fashioned a conception which by bringing nature to the forefront of his poem became a new poetic way of defining human experience Thomson was not the first nature poet in English but he was the first to provide an effective idiom in which science, orthodox religion, natural description and classical allusions blended to describe the glory, baseness and uncertainty of man's earthly environment holding forth the hope of heavenly love and wisdom This study shows that Thomson found a personal idiom by means of which he created an artistic vision It will appeal to those with an interest in English literature and in philosophy The Four Seasons of the House of Cerruti, 1984 Italien Mittelalter Nahrungsmittel
