MISSION

MISSION #1 Periscope vs. Spy!

CLASSIFIED

BACKGROUND

The periscope you've been assigned has two specially placed mirrors inside that reflect light from the opening at the top down to the bottom. This allows you to see over walls and around corners. You can use these mirrors because light always reflects off a mirror at the same angle it hits the mirror. **Here is an example of the way it works:** The mirrors inside are set at a precise 45° angle so that light coming in is bounced off the first mirror near the opening and is sent straight down toward the second mirror. When a third line is traced below, a beam of light enters and out the eye port.

MISSION OBJECTIVE

Using your periscope to spy hidden objects, which still can be seen as you can't see them. Use the light to see the image after you've done this with each team, draw the "Secret Agent" picture.
