significant costs on individuals and be a barrier to employment and enterprise Many people are still facing problems in opening basic bank accounts and operating them to maximise their value Some banks are not meeting their obligations under the Banking Code This report sets out an agenda for action for the Government banks and the Banking Code Standards Board It also looks at other issues where further action is required such as the banks and utility companies giving greater priority to low cost payment options and the need for the DWP to review third party deduction schemes The Government needs to ensure that problems with accessing bank accounts are resolved before extending the system of direct payment of housing benefit The plans for the migration away from the Post Office Card Account have not been well handled and the report recommends that the Government works with the Post Office in promoting financial inclusion Parliamentary Debates (Hansard). Great Britain. Parliament. House of Commons,2010 **Financial Exclusion** S. Carbó,E. Gardner,Philip Molyneux,2015-12-17 This text is concerned with the increasingly important and problematic area of financial exclusion broadly defined as the inability and or reluctance of particular societal groups to access mainstream financial services This has emerged as a major international policy issue There is growing evidence that deregulation in developed financial sectors improves financial inclusion for some societal groups more products become available to a bigger customer base but may at the same time exacerbate it for others for example by emphasizing greater customer segmentation and more emphasis on risk based pricing and value added In developing countries access to financial services is typically limited and therefore providing wider access to such services can aid financial and economic development This is the first text to analyze financial exclusion issues in different parts of the world and it covers the various public and private sector mechanisms that have been advanced to help eradicate this problem **New Statesman** ,2005 **Department of Social Security Research Year Book** A.
