*Boko Haram's Terrorism and the Nigerian State* Olumuyiwa Temitope Faluyi, Sultan Khan, Adeoye O. Akinola, 2019-03-08 This book assesses the effectiveness of Nigeria's counterterrorist policies against Boko Haram. It takes a critical review of the interventionist strategies adopted by the Nigerian government highlights the motivations behind the choice of strategies and proffers a deeper understanding of the factors responsible for the state's inability thus far to rid the country of terrorism. Specifically it evaluates the NACTEST policy framework that guides the Nigerian state's counterterrorist strategies which contains both hard and soft power approaches. Adopting historical and case study approaches which put the Nigerian state and occurrences of violent conflict in context it takes cognizance of the politics of ethno religious diversity which reinforce violent conflicts among groups and against the state and reviews the socio economic and political realities that led to the emergence and sustenance of Boko Haram. The volume concludes by suggesting practical policy options for combating Boko Haram and other similar armed insurrection. This book is appropriate for researchers and students interested in African politics conflict security peace studies terrorism and counterterrorism as well as policy makers and government departments dealing with terrorism and counterterrorism.

*RFID Systems* Miodrag Bolic, David Simplot-Ryl, Ivan Stojmenovic, 2010-09-23 This book provides an insight into the hot field of Radio Frequency Identification. RFID Systems. In this book the authors provide an insight into the field of RFID systems with an emphasis on networking aspects and research challenges related to passive Ultra High Frequency UHF RFID systems. The book reviews various algorithms protocols and design solutions that have been developed within the area including most recent advances. In addition authors cover a wide range of recognized problems in RFID industry striking a balance between theoretical and practical coverage. Limitations of the technology and state of the art solutions are identified and new research opportunities are addressed. Finally the book is authored by experts and respected researchers in the field and every chapter is peer reviewed. Key Features Provides the most comprehensive analysis of networking aspects of RFID systems including tag identification protocols and reader anti collision algorithms. Covers in detail major research problems of passive UHF systems such as improving reading accuracy reading range and throughput. Analyzes other hot topics including localization of passive RFID tags energy harvesting simulator and emulator design security and privacy. Discusses design of tag antennas tag and reader circuits for passive UHF RFID systems. Presents EPCGlobal architecture framework middleware and protocols. Includes an accompanying website with PowerPoint slides and solutions to the problems. <http://www.uottawa.ca/~mbolic/RFIDBook> This book will be an invaluable guide for researchers and graduate students in electrical engineering and computer science and researchers and developers in telecommunication industry.

**World Terrorism: Diagnosis And Path To Global Peace** Taiwo, Victor Olu, 2015-02-07 The author posits that there is no common definition of terrorism currently afflicting Nigeria Africa and the wider world. He seeks to find the root causes which he defines as religion mis governance and the oppression by the powerful of the less

powerful countries He considers religion within four areas Christianity Islam traditional religions and other foreign religions The fourteen chapters cover Cause and Effect the Rescue in Religion God s Incomprehensibility and Enigmatism Further Explorations God s Manual Ordinances and their Authenticity in Examination Who is Liable God or Man Evolutions of Christianity and Islam Scriptural Discrepancies and their Inherent Hazards God must be Crazy Terror on the Spree Africa in Periscope Facts and Figures Nigeria A Case Study Israeli Palestine Conflict My Proffered Elixir **War on Terror, Inc** Solomon Hughes,2007 Surveying the activities of private contractors in the provision of frontline mercenaries security services guarding key installations and VIPs prisons and law enforcement media management and intelligence gathering at home and abroad Hughes demonstrated that the private sector and its army of lobbyists and salesmen are continuously lowering the practical and moral barriers to interventions of every kind from torture and imprisonment without trial to blanket surveillance of the civilian population and to outright war Meanwhile the state is evermore evasive when it comes to taking responsibility for the practices it authorizes via agreements drawn up under a veil of commercial privacy and remains as inept as it has ever been at procuring efficiency and value for money from its contracts Christian Ethics Non-violent Resistance Approach to Boko Haram Anthony Okechukwu Nnadi PhD STD,2024-04-10 The book takes a practical look at the complexity of the nature of violence terrorism in Nigeria in the light of the Catholic social teaching on non violent resistance With the critical analyses of some policies strategies used to address the problem of Boko Haram terrorism in Nigeria the book explores a range of questions Does severe punishment work effectively as deterrence against possible involvement in terrorism Does applying lex talionis reduce or exacerbate recidivism What are the right mechanisms to stop terrorism violence in Nigeria This book is convinced that nothing is resolved through violence and that violence begets violence alluding that responding to terror with terror is a retaliatory method that is self defeating On the whole it has been noted that the principle or law of retaliation Lex Talionis alone cannot stop armed insurgency in Nigeria thus the book suggests non violent resistance as the best way to address terrorism and violent conflicts Non violent resistance does not mean condoning violent attacks against innocent civilians Based on the Christian ethical principles of the dignity of the human person and justice this book explicitly declares that the killing of innocent civilians is absolutely immoral The book explores the use of the term Islamic terrorism and the Islamic ethics of justice peace and nonviolence and underlines that the Islamic core moral principles in no way support terrorism While stating that terrorism is morally wrong this book states that the causes of terrorism must be addressed with justice and fairness On this basis the book insists on critically investigating the following religious extremism corruption bigotry in politics and religion the glaring sense of apathy among the political elite to the suffering of the oppressed and the mismanagement and abuse of political positions or the nation s resources for selfish interest There must be a rethink aimed at finding the best way to build an ethical society a framework for justice and peace

**The Globalization of Terrorism** Ihekwoaba D. Onwudiwe,2018-05-08 This title was first published in 2001 Terrorism is

today a global problem and as was recently demonstrated in Kenya and Tanzania no country is immune Terrorism occurs everywhere villages and cities it targets innocent people and terrorists who are ideologically opposed to one country can vent their anger against citizens of another Addressing this crucial issue this book examines the future of global terrorism by employing the World System s perspectives in the explanation of terrorism and investigating the etiological determinants of international terrorism It aims to articulate a theoretical explanation of terrorism which will assist the development of practical policies that are effective in counter terrorism operations The main features of the book include World System s Theory WST the relevance of WST factors affecting the definition of terrorism structural terrorism in the WST application of Fanon the political dimension of terrorism ideologies the disadvantages of ideological labels measuring WST position and the distribution of terrorism terrorist incidents by WST position of occurrence and WST position of target labelling terrorism in context powerism and anti powerism racial terrorism and global apartheid and the criminalization of terrorism

**Civil Rights and Security** David Dyzenhaus,2017-05-15 This collection of previously published work on security and rights focuses on the appropriate relationship between rights and what we can think of as counterterrorism policy Such a focus might seem both necessary because of 9 11 and unfortunate because there are other causes of insecurity besides terrorism However the intensity of the war on terror has created an ongoing surge of scholarship on the relationship between security and human rights that either has indirect implications for debates about security where terrorism is not in issue or has directly led to an attempt to rethink more generally the idea of security and its relationship to rights

Tucker the Trucker

La Verne Morgan Roxby,2011-10-07 Tucker the Trucker is a collection of mostly humorous short stories and essays Many of LaVerne s writings begin with at least a bit of truth such as an experience in her life and then go from there sometimes into fantasyland She has always liked to take a small truth and turn it into something very different She tries to find humor in every situation and especially in her own life When that doesn t work she writes serious stories and essays but her imagination is still very much involved LaVerne always sees the glass as half full and that attitude keeps her happy and sane for the most part You be the judge
