*Spook Crooks!* Julien J. Proskauer, 1946      **Spook Crooks!** Julien J. Proskauer, 1971      The Changing Terrain of Religious Freedom Heather J. Sharkey, Jeffrey Edward Green, 2021-09-24 The Changing Terrain of Religious Freedom offers theoretical historical and legal perspectives on religious freedom while examining its meaning as an experience value and right The volume starts from the premise that the terrain of religious freedom has never been easy and smooth Across societies and throughout history defending or contesting principles of religious freedom has required compromise among multiple interests balancing values and wrangling with the law Drawing on examples from the United States and around the world and approaching the subject from the disciplines of history law sociology philosophy religious studies and political science the essays in this volume illustrate these challenges They sketch the contours of contemporary debates while showing how the landscape of religious freedom has shifted over time They consider various stakeholders that have asserted competing claims among them individuals and groups members of minority and majority communities states and corporations including both religious organizations and businesses and believers and non believers Taken together the studies in this volume suggest that understanding religious freedom means grappling with conflicting and perhaps irreconcilable claims about whose rights should prevail over others what religion is or may be and how religion should relate to other cultural values      **Spirit Sleuths** Gail Jarrow, 2024-09-10 The latest from acclaimed author Gail Jarrow reveals how magicians including Harry Houdini and his team of investigators exposed fake mediums who exploited the vulnerable and gullible in the early twentieth century After millions of people died during World War I and from the 1918 influenza pandemic the popularity of Spiritualism soared Desperate to communicate with their dead loved ones the bereaved fell prey to extortion by fraudulent mediums and fortune tellers But magician Harry Houdini wasn't fooled He recognized the scammers methods as no more than conjurer's tricks Angered by the way people were exploited Houdini set out to expose the ghost hoaxes In his stage show he revealed the fraudsters techniques and he used a team of undercover investigators to collect proof of s ance deceptions His head secret agent was a young New York private detective and disguise expert Rose Mackenberg a woman who continued her ghost busting career for decades long after Houdini's death in 1926 Ideal for young readers and adults who are drawn to the worlds of psychics and magicians this riveting book uncovers a little known chapter in American history and details the ways people were and still are deceived by mediums and fortune tellers      **Radio Psychics** John Benedict Buescher, 2021-08-24 When radio broadcasting began in the early 1920s the radio was a magic box aglow with the future drawing humanity into a new age Some thought it would dissolve the distance between time and place others that human minds would become transparent one tuned to another Performers claiming psychic powers turned radio broadcasting into a fabulous money machine These mentalists born from vaudeville circuses sideshows and the Spiritualist and New Thought movements of the mid late 19th century used the language of wireless technology to explain their ability to

see the past present and future Casting their mystical knowledge as a scientifically honed craft these mentalists persuaded millions to pay for dubious advice until governmental and public pressures forced them off the air This book is a history of over 25 performers who practiced their art behind studio microphones during the early years of radio broadcasting from about 1920 to 1940 Here laid out for the first time is the tale of how they made cash rain from the heavens and harnessed the sensation of the radio in search of wealth health love and success     *A Skeptic's Handbook of Parapsychology* Paul Kurtz,1985 A comprehensive collection of the world s leading skeptics combining a detailed history of parapsychology and psychic research with a review of the current status of the field Highly recommended for both academic and general readers Choice Copyright Libri GmbH All rights reserved     *Encyclopedia of Occultism & Parapsychology* Leslie Shepard,1984 A compendium of information on the occult sciences magic demonology superstitions spiritism mysticism metaphysics psychical science and parapsychology with biographical and bibliographical notes and comprehensive indexes     *Advances in Parapsychological Research* ,1977     *Advances in Parapsychological Research* Stanley Krippner,1977 Five articles and support material further the series documenting the scientific investigation into the ability of human consciousness to transcend space and time with extra sensory perception and to produce remote effects such as psychokinesis and psychic healing They consider spontaneous psi phenomena methods of enhancing PK task performance psychic healing and complementary medicine testing children for paranormal abilities and the sociological and social psychology of conjurors and their relations with psychical research Also included are a tribute to Italian researcher Emilio Servadio 1904 95 and a selection bibliography of books published 1991 94 Annotation copyrighted by Book News Inc Portland OR     *Advances in Parapsychological Research: without special title* Stanley Krippner,1977     *Circus and Allied Arts* Raymond Toole Stott,1971
