Sports Plus Positive Learning

Larry Nucci, Tobias Krettenauer

Sports Plus Positive Learning:

Sports Plus Jeffrey Pratt Beedy, 2016-01-18 Do sports teach us how to play well the game of life It all depends Most of us know from firsthand observation that sports can build character or undermine it They can foster fair play or dirty play honest competition or win at all costs They can promote teamwork or selfishness self control or fits of rage the ability to win and lose gracefully or neither In my lifetime the negative character effects of competitive sports have sadly become ever more common From Little League to professional athletics competitive sports have seemed increasingly to bring out the worst not the best in players and fans alike But as the PLUS curriculum makes clear it doesn't have to be that way Approached correctly sports can be an important tool for building the character of our children and helping to rebuild the character of our culture *Sports PLUS* Jeffrey Pratt Beedy, 2016 **Sports PLUS** Jeffrey Pratt Beedy, 1997 **PLUS Series** Matt Davidson Ph D, Jeffrey Beedy, 2021-02-21 The PLUS Series examines how coaches teachers and parents can create positive learning environments within children's sports Each series book is part of the larger PLUS Model **Handbook of Moral and Character Education** Larry Nucci, Tobias Krettenauer, 2014-04-24 There is widespread agreement that schools should contribute to the moral development and character formation of their students In fact 80% of US states currently have mandates regarding character education However the pervasiveness of the support for moral and character education masks a high degree of controversy surrounding its meaning and methods The purpose of this handbook is to supplant the prevalent ideological rhetoric of the field with a comprehensive research oriented volume that both describes the extensive changes that have occurred over the last fifteen years and points forward to the future Now in its second edition this book includes the latest applications of developmental and cognitive psychology to moral and character education from preschool to college settings and much more **Sport, Development and Peace** Joel Rookwood, 2025-06-11 This volume offers a comprehensive exploration of the rapidly evolving landscape of Sport for Development and Peace SDP a critical approach to peacebuilding economic development and social transformation gaining increasing stature during the last twenty five years Contributors here scrutinize the diversification in SDP methods and ideals spotlighting global dimensions and differences in this burgeoning field Encompassing contributions from scholars across five continents the chapters illuminate diverse approaches and analyses reflecting a variety of viewpoints and experiences The volume highlights the heterogeneity within SDP and assesses the trajectory of SDP studies while also identifying common threads among seemingly disparate approaches Further it investigates sport's role in responding to global challenges from financial crises to the COVID 19 pandemic climate change and conflicts and although sport is often recognized for its potential to foster peace and development this book navigates the intricate complexities and contradictions that can arise in the practice of harnessing sport for these goals With 14 engaging chapters the book delves into a range of topics including critical analyses of different SDP approaches the sustainability of sport initiatives alignment of SDP with sustainable development goals and the use of

sport in refugee resettlement It also examines sport's contribution to societal outcomes like health education inequality reduction and peace while discussing challenges faced in the field Moreover the volume explores the connections between SDP and indigenous philosophies feminism local community development and issues of violence within prisons Offering a holistic view of SDP's evolution and impact presenting fresh perspectives as well as critical insights for scholars practitioners and policymakers in the realm of international sport development and peacebuilding this volume marks itself an essential resource for understanding the multifaceted landscape of SDP

Sport Coaching with Diverse Populations James

Wallis, John Lambert, 2020-10-25 Sports coaches apply their skills in a wider variety of contexts and with a more diverse range of athletes and participants than ever before This book introduces the professional competencies and knowledge needed to build successful working relationships across the different communities and groups with which coaches operate The book offers important insight for coaches who work with specific populations including different age groups black Asian and minority ethnic BAME people those of different gender or sexual orientation individuals with disabilities or illness the socio economically disadvantaged and refugees Drawing on real world case studies such as coaching girls in combat sports and coaching cardiac rehab patients and adopting a critical approach to values philosophy and pedagogic process this book argues that understanding the recipient of coaching and their particular needs is as important as content knowledge With contributions from leading coaching researchers and practitioners this is important reading for developing coaches students on sports courses and other individuals involved in the sport pedagogy domain who seek to gain a better understanding of the demands of meeting the specific needs of people in the coaching process

Values in Youth Sport and Physical

Education Jean Whitehead, Hamish Telfer, John Lambert, 2013-12-04 As sport has become more intense professional and commercialized so have the debates grown about what constitutes acceptable behaviour and fair play and how to encourage and develop good sporting behaviour particularly in children and young people This book explores the nature and function of values in youth sport and establishes a framework through which coaches teachers and researchers can develop an understanding of the decision making processes of young athletes and how they choose between playing fairly or cheating to win The traditional view of sport participation is that it has a beneficial effect on the social and moral development of children and young people and that it intrinsically promotes cultural values This book argues that the research evidence is more subtle and nuanced It examines the concept of values as central organizing constructs of human behaviour that determine our priorities guide our choices and transfer across situations and considers the value priorities and conflicts that are so useful in helping us to understand behaviour in sport The book argues that teachers and professionals working with children in sport are centrally important agents for value transmission and change and therefore need to develop a deeper understanding of how sport can be used to encourage pro social values and offers suggestions for developing a curriculum for teaching values through sport in differing social contexts Spanning some of the fundamental areas of sport practice and

research including sport psychology sport pedagogy practice ethics and positive youth development through sport and including useful values and attitudes questionnaires and guidance on their use and interpretation this book is important reading for any student researcher coach or teacher with an interest in youth sport or physical education **Physical & Health Education Journal** ,2004 Canada s magazine for physical and health educators *Instructor* ,1981 **Good Housekeeping** ,1976 **PLUS Series One** Dr Jeffrey P Beedy,Dr Matt Davidson,2021-02-21 The Positive Learning Using Sports PLUS Series explores how children s sports can be intentionally designed to promote positive learning such as respect and responsibility Each book in the PLUS Series will examine different elements of children s sports such as how to create a positive philosophy and dialogue with the players about important life issues *A Practical Approach to Junior High School Intramurals* Thomas M. Anton,Louis Toschi,1959 *The Lancet* ,1936 *Skole* ,1998 **Harper's Bazaar** ,1947 *Learning* ,1977 **Simulation/games for Learning** ,1987 *Resources in Education* ,1981 *Saturday Review/World* ,1974
