Victor Goldsmith, Philip G. McGuire, John B. Mollenkopf, Timothy A. Ross, 1999-11-18 Crime control continues to be a growth industry despite the drop in crime indicators throughout the nation. This volume shows how state of the art geographic information systems GIS are revolutionizing urban law enforcement with an award winning program in New York City leading the way. Electronic pin mapping is used to display the incidence of crime to stimulate effective strategies and decision making and to evaluate the impact of recent activity applied to hotspots. Students academics researchers practitioners and policymakers in the areas of criminal justice corrections geography social problems law and government public administration and public policy analysis will need to look at the interdisciplinary nature of both GIS and
