Spring In Morocco:

Spring in Morocco Anne Melville,1962 **Spring in Morocco** Anne Betteridge,1962 Historical Dictionary of the Arab Uprisings Aomar Boum,Mohamed Daadaoui,2020-03-10 The Arab uprisings that swept the Middle East and North Africa in the period from 2011 2012 left an indelible mark on the socio political landscape of the region But that mark was not consistent across the region while some countries underwent dramatic popular social and political changes others teetered on the brink or were left with the status quo intact Street revolutions toppled despotic regimes in Tunisia Libya and momentarily in Egypt while mounting serious challenges to authoritarian regimes in Syria and Yemen Algeria s entrenched bureaucratic cum military authoritarian system proved resilient until the recent events of early 2019 which forced the resignation of President Abdelaziz Bouteflika before the end of his term on 28 April 2019 As in Algeria protestors in Sudan succeeded after months of demonstrations in overthrowing the government of Omar al Bashir Several Arab monarchies still appear stable and have managed to weather the tempest of the Arab revolutions albeit not without fissures showing in the edifice of their states accompanied by some minor constitutional changes Where Tunisians Egyptians Yemenis Syrians and Libyans demanded regime changes in their political systems protesters in the Arab monarchies have called on the kings and emirs to reform their political system from the top down indicating the sizeable monarchical advantage Historical Dictionary of the Arab Uprisings contains a chronology an introduction and an extensive bibliography The dictionary section has over 500 cross referenced entries on the terms persons and events that shaped the Arab Spring uprisings This book is an excellent resource for students researchers and anyone wanting to know more about the Arab Uprisings *Freshwater key biodiversity areas in the Mediterranean basin hotspot* V. Barrios,Santiago Carrizosa,W.R.T. Darwall,Jörg Freyhof,C. Numa,K. Smith,2014-01-01 While the Mediterranean basin biodiversity hotspot is well known for its globally important biodiversity its freshwater biodiversity has not been as widely recognized for its importance Through this project freshwater key biodiversity areas KBAs have now been identified mapped and validated throughout much of the Mediterranean hotspot It is now important to raise awareness of their status as validated freshwater KBAs and to develop plans for appropriate conservation actions at these sites as this biodiversity is highly threatened largely due to the conflicting demands upon a diminishing supply of fresh water which is further exacerbated by the increased severity of drought across the region **A History of London** William John Loftie,1883 Mohammed VI's Strategies for Moroccan Economic Development Eve Sandberg,Seth Binder,2019-08-01 This book analyzes the economic development choices initiated by Morocco s King Mohammed VI since he ascended the throne in 1999 and situates those choices in the political economy development literature Examining the policies enacted by the King the authors argue that over the past twenty years Mohammed VI has achieved some outstanding successes in modernizing the foundational economic sectors of Morocco but the benefits of this development have not reached all Moroccans With its focus on economic development this book explores the way in which Mohammed VI s

development strategies have in part resembled the neoliberal model advocated by Western powers and institutions as well as how the King also adopted some of the European practices of state intervention found in the varieties of capitalism models across Europe. Additionally Mohammed VI's Strategies for Moroccan Economic Development looks at the way in which the King has sought to utilize leap frog technologies so that Morocco has become a leader in certain productive sectors and is not just catching up to rival producers. The book also examines the extent to which Moroccan citizens have benefited from the economic transformations, arguing that not all Moroccans have benefited. Many Moroccan citizens in 2019 echo the same economic concerns that were voiced in 1999 when King Mohammed VI first assumed the throne. With its focus on economic development, this book will be of interest not only to scholars and students of Middle East and North African Studies but also Economics, International Development and Politics.

In recent years the US has seen its public popularity ratings around the world plummet under the presidency of George W Bush and subsequently soar upon the election of Barack Obama. The issue of anti Americanism has received considerable attention from policy makers, pundits and scholars alike. It is perhaps surprising then that systematic empirical studies of its consequences are still few and far between. Drawing from a wealth of research data, interviews and surveys of social media, this book directly examines pro and anti American views and asks what we can learn about the nature and impact of world opinion. By treating anti Americanism as a case study of public opinion at work, Professor Datta reveals how we can better understand the relationship between global citizens and their political leaders and concludes that anti Americanism does in fact substantially impact US security as well as its economic and political interests. *The Industrial Classes and Industrial Statistics* G.
