Statistical Analysis for Public and Nonprofit Managers Leanna Stiefel, 1990-02-28 Designed for use by professionals and graduate level students in public administration and not for profit management this is a comprehensive clearly written guide to the use of statistical analysis in the management of nonprofit organizations The volume emphasizes statistical models that use more than one variable and is unique in presenting multivariate statistics specifically with the public and nonprofit manager in mind Examples throughout have been chosen to be relevant to the not for profit organization and each chapter contains several real life illustrations of how statistical techniques can be used in actual practice In addition to explaining statistical methods and techniques in detail the author focuses on why statistics should be used and helps the reader obtain
