chosen to serve as an effective example of fictional IR and feminist IR scholarship which can be investigated through the research puzzles concerning gender pain and truth Fictional International Relations has three main objectives First it investigates the way in which fiction writing can become a method for dealing with data problems and contingency in IR Second the book examines how gender pain and truth operate or interact in the case of the Korean spy and how this observation can strengthen feminist IR in terms of intersectionality Finally the author goes on to explore why this case has been so difficult to study openly and thoroughly The aim of the book is not to refute the official findings the point is to unpack complex dynamics surrounding truth more specifically how the official account has been executed as the truth based on a feminist informed investigation This book will be of interest to students of IR theory critical security studies Cold War studies gender studies and Asian studies
