**Systems-Centered Training** Yvonne M. Agazarian, Susan P. Gantt, Frances B. Carter, 2020-12-30 This illustrated book shows how thinking systems offer new ways of seeing people which can help us see and do things differently. The authors describe how a theory of living human systems was developed and even recently revised. This major revision led to a theory of the person as a system and its role systems map that helps us see which system in us and in others is running the show. The authors illustrate how life force energy fuels the hierarchy of living human systems and how theory and practice with role systems can be useful in everyday life.
