

Kant's Moral Philosophy

- One of Kant's goals in life was to seek out a main principle of the foundation of morals
- How Kant would do this is by figuring out the system of which peoples' moral judgments are made
- Through experimentations, Kant comes to many conclusions about morals
- Kant learns that it takes a great deal of effort for a person to betray morals that they are so bound to
- Kant also learns that people who possess rational thinking and free will also possess autonomy or self-dependence
