Taches De Jazz:

Mallarmé Wagner: Music and Poetic Language Heath Lees, 2017-07-05 This book challenges and replaces the existing view of Mallarmé's mission to repossess music on behalf of poetic language. Traditionally this view focused on only the last fifteen years of the poet's life and sprang from a belief in Mallarmé's sudden awakening to music during an all-Wagner concert in Paris in 1885. Professor Heath Lees shows that Mallarmé's early knowledge and experience of music was much greater than commentators have realized and that the French poet actually began his writing career with the explicit aim of making music's performance language of effect the ground of his poetic expression. Integral to the argument is Mallarmé's reaction to the work and ideas of Richard Wagner whose impact on France came in two waves: the first broke during the tempestuous 1860s days of the Paris Tannhäuser while the second arrived in the mid 1880s and gave birth to the Revue Wagnérienne. In refuting the critical literature that focuses on only the second of these waves, Lees shows that Mallarmé exhibited a highly informed Wagnerian background during the first wave and that his grasp of the composer's gestural motives and flexible musical prose led him towards a new kind of self-expressive gestural rhythm that aimed musically to reinvent poetic language. In support of this, the book examines closely what Wagner really said in the prose works that were becoming known in Paris by the 1860s, in particular Wagner's important French text, the *Lettre sur la musique*. It also re-examines Baudelaire's classic Wagner brochure and reveals its author's surprisingly firm grasp of Wagner's musical-poetic fusion. In musically informed commentary, Professor Lees surveys the four decades of success and failure that resulted from Mallarmé's repeated attempts to draw out the musical gestures and resonances of words alone. In the process, he throws new light on many of Mallarmé's best-known texts hitherto judged difficult by those who have failed to

The Jazz Image K. Heather Pinson, 2010-12-01 Typically a photograph of a jazz musician has several formal prerequisites: black and white film, an urban setting in the mid-twentieth century, and a black man standing, playing or sitting next to his instrument. That's the jazz archetype that photography created. Author K. Heather Pinson discovers how such a steadfast script developed visually and what this convention meant for the music. Album covers, magazines, books, documentaries, art photographs, posters, and various other visual extensions of popular culture formed the commonly held image of the jazz player. Through assimilation, there emerged a generalized composite of how mainstream jazz looked and sounded. Pinson evaluates representations of jazz musicians from 1945 to 1959, concentrating on the seminal role played by Herman Leonard. b. 1923 Leonard's photographic depictions of African American jazz musicians in New York not only created a visual template of a black musician of the 1950s but also became the standard configuration of the music's neoclassical sound today. To discover how the image of the musician affected mainstream jazz, Pinson examines readings from critics, musicians, and educators as well as interviews, musical scores, recordings, transcriptions, liner notes, and oral narratives.

the Musical Past : Early Music in Nineteenth-Century France University of London Katharine Ellis Reader in Music Royal Holloway, 2005-08-24 This study of the French early music revival gives us a vivid sense of how music's cultural meanings were contested in the nineteenth century. It surveys the main patterns of revivalist activity while also providing in-depth studies of repertoires stretching from Adam de la Halle to Rameau.

Cummins, 1979 **Kaleidophonic Modernity** Brett Brehm, 2023-02-21 What stories remain hidden behind one of the most significant inventions of the nineteenth century? Kaleidophonic Modernity reexamines the development of mechanical sound recording technology by charting the orbits of writers, scientists, and artists in France and the United States. Working between comparative literature, the history of science, and urban studies, Brehm builds a bridge between visual culture and sound studies. Kaleidophonic Modernity places the poet and inventor Charles Cros and his lover, the celebrated concert pianist and salonnière Nina de Villard at the heart of modern aesthetic and scientific vanguards. Cros's scientific endeavors ranged from color photography to telecommunications to mechanical sound reproducibility. In his poetry, the Surrealists found an ancestor and inspiration. His literary and scientific works prove startling and relevant to predicaments of technological media in his own time and ours. For nearly twenty years, Nina de Villard presided over a supremely daring intellectual salon. There she welcomed manifold literary, artistic, and musical luminaries into a veritable crucible of the artistic avant-garde and precursor to the famous Chat Noir cabaret. Together, these two forgotten but pivotal figures, Cros and Villard, help reframe our thinking on Edgar Allan Poe, Charles Baudelaire, and Walt Whitman, icons of urban modernity who can now be seen and heard in a kaleidophonic light, one that offers a compelling new perspective on modern mediascapes. In elaborating this transatlantic phenomenon, Kaleidophonic Modernity illuminates the prehistory of the phonograph as it intersects with the aesthetics of sound reproducibility, Franco-American literary exchange, Poe's aesthetic and intellectual legacy, the sounds of modern cities and technologies, and the genealogy of audiovisual experimentation found in such movements as Dada, Futurism, and the sound art of today.

"Manet, Wagner, and the Musical Culture of Their Time" Therese Dolan, 2017-07-05 How did the tumult caused by German composer Richard Wagner result in the first modernist painting? In the first full-length book dedicated to the study of Edouard Manet and music, art historian Therese Dolan demonstrates that the 1862 painting *Music in the Tuileries* represents the progressive musical culture of his time. Heretofore read by scholars predominantly through the words of Charles Baudelaire, Dolan sees in this painting's radical style the conceptual shift to modernism in both painting and music, a transition that she convincingly argues received a strong impetus from Manet's *Music in the Tuileries* and Wagner's controversial *Tannhäuser*, which premiered the previous year. Supplemental to analysis of the painting, Dolan incorporates discussion of texts by Théophile Gautier, Champfleury, and Baudelaire, who are

represented in the painting This book incorporates studies of the major artistic literary and musical figures of nineteenth century France It represents an important contribution to an understanding of French culture in the third quarter of the nineteenth century a period of intense literary artistic and musical activity that formed the crucible for modernism
