Bibliographic Guide to Slavic, Baltic and Eurasian Studies 1994 Nypl,1995 **Fashion Meets Socialism** Jukka Gronow,Sergey Zhuravlev,2015-08-19 This book presents above all a study of the establishment and development of the Soviet organization and system of fashion industry and design as it gradually evolved in the years after the Second World War in the Soviet Union which was in the understanding of its leaders reaching the mature or last stage of socialism when the country was firmly set on the straight trajectory to its final goal Communism What was typical of this complex and extensive system of fashion was that it was always loyally subservient to the principles of the planned socialist economy This did not by any means indicate that everything the designers and other fashion professionals did was dictated entirely from above by the central planning agencies Neither did it mean that their professional judgment would have been only secondary to ideological and political standards set by the Communist Party and the government of the Soviet Union On the contrary as our study shows the Soviet fashion professionals had a lot of autonomy They were eager and willing to exercise their own judgment in matters of taste and to set the agenda of beauty and style for Soviet citizens The present book is the first comprehensive and systematic history of the development of fashion and fashion institutions in the Soviet Union after the Second World War Our study makes use of rich empirical and historical material that has been made available for the first time for scientific analysis and discussion The main sources for our study came from the state party and departmental archives of the former Soviet Union We also make extensive use of oral history and the writings published in Soviet popular and professional press **Кровавая охота. По следам монстров** Прокопец Дмитрий (сост.), *Selective Remembrances* Philip L. Kohl,Mara Kozelsky,Nachman Ben-Yehuda,2008-11-15 When political geography changes how do reorganized or newly formed states justify their rule and create a sense of shared history for their people Often the essays in *Selective Remembrances* reveal they turn to archaeology employing the field and its findings to develop nationalistic feelings and forge legitimate distinctive national identities Examining such relatively new or reconfigured nation states as Iran Iraq Turkey Israel Russia Ukraine India and Thailand *Selective Remembrances* shows how states invoke the remote past to extol the glories of specific peoples or prove claims to ancestral homelands Religion has long played a key role in such efforts and the contributors take care to demonstrate the tendency of many people including archaeologists themselves to view the world through a religious lens which can be exploited by new regimes to suppress objective study of the past and justify contemporary political actions The wide geographic and intellectual range of the essays in *Selective Remembrances* will make it a seminal text for archaeologists and historians **HERA and the LHC** Albert De Roeck,Hannes Jung,2005
Performing Memory Luisa Passerini,Dieter Reinisch,2023-06-09 Through a post 1968 perspective on the past 50 years *Performing Memory* brings together case studies on new developments in the relationship between politics and visual representation including the histories of dance theatre political performance and cinema and investigates how they relate to

the interlinked concepts of visuality corporeality and mobility Using a collective transdisciplinary attitude from within historical disciplines and looking across to artistic fields this volume demonstrates that memory is not merely a recollection of experience but an interactive process in which the body mobile and constrained is both a point of departure and reference
