

# SUBCONSCIOUS VS CONSCIOUS MIND

- Throughout your life, you have programmed your subconscious with thoughts that you have repeated to yourself to become habits.
- The subconscious mind stores information and it stores the information for later retrieval when "recalled" by the conscious mind. The subconscious mind is like the software that will obey any command you give it.
- The conscious mind is the programmer. It's the thinking mind, the creative mind. However... the conscious mind is influenced by filters that your predominant thoughts have created and stored in the subconscious.
- The subconscious mind, does not judge or discriminate between what can and cannot be achieved or obtained.
