The Making of a Martial Artist Sang Kyu Shim, 1980 Making of a Martial Artist Jae K Shim, Ph.D., Shim, 1991-01-01
Journal of Asian Martial Arts , 2008 **Taking It To The Street** Marc Animal MacYoung, 1999-11-01

Most real fights are short fast and brutal And there are no rules The martial artist who thinks he s trained to handle what s coming may be in for a painful surprise But this isn t one of those books about bringing your martial art up to street speed that rips on everything you ve worked so hard to learn It s a book on taking your moves and making them fast fanged and fierce enough to stand up to a surprise attack Ex streetfighter Marc Animal MacYoung knows from experience that no matter how much training they ve had most people get overwhelmed in the first critical seconds of a streetfight And it s nearly impossible to get over the shock of being attacked and organize a viable response while someone is tap dancing on your face With photos illustrations and detailed instructions Animal brings the martial artist from the structured safety of the dojo to the mayhem of the street alley and biker bar He teaches you the quickest ways to get your attacker off his feet how to do bulletproof blocks and throws how to anticipate a strike and how to make a kicker howl He also gives you important tips on what to do after a brawl because such issues as legalities revenge seekers and your own mental well being last long after the fight is over Anyone who s ever wondered if his or her martial arts training would hold up to a real life attack needs to read this book

The Essence of Martial Arts John Hennessy, 2011-11-10 In this guide author John Hennessy presents a concise to the point volume on martial arts written from the perspective of prospective students to help make sense of complicated routines that remained reserved for senior martial arts students The Essence of Martial Arts is an easy to read instructional guide to mastering the more difficult maneuvers and then applying them to real world scenarios You may be new to martial arts experienced or somewhere in between Perhaps youve never been to a dojo dojang or kwoon or perhaps you spend a large portion of your time at one of them Whatever the case you will be able to pick up the elements of martial arts quickly and put them to use This guide covers the basics but also addresses more specific approaches for fighting and self defense So jump right in With good guidance its not difficult to achieve excellence in martial arts if you absolutely commit to doing so

Synopsis Written from the unique perspective of an experienced martial arts instructor the book is a concise collection of theories that the author knows to work in practise Throughout the book is easy to read and balances a humorous style when telling real life stories which enhances the serious points the author wants to convey Therefore the book is summarised into the basic intermediate and advanced levels that all readers can pick up the elements quickly and put them to use There are specific chapters on Kung Fu Wing Chun Tai Chi Karate and Jeet Kune Do This is a very personal book in which the author details how and why he got into martial arts through to chapters on real practical life saving methods street fighting self defence for women and how to succeed in tournaments Anyone interested in martial arts will not fail to benefit from this book Why you should buy this book Many chapters have insights that some teachers won t tell you Often they will tell you

what works for them but not explain in detail what will work for you So what is produced from some Schools are people who have some individual strengths but many weaknesses that the training for whatever reason does not correct This book helps you focus on what is important It does not go on and on about difficult techniques that you cannot do without proper guidance This book explains basic and more advanced approaches simply and methodically It is a book any beginner can improve from and many advanced martial artists can benefit from Chapters Include Tai Chi How to harmonise internal energy to turn it into external force Re directing your Opponent s Energy How to beat someone without throwing a single punch Kung Fu How to blow your opponent away effectively and with relative ease Jeet Kune Do How to use this most unsettling of styles to devastating effect Karate How to use discipline and focus to overcome your opponent Self Defence Principles for Women Reasons why women can be confident against potential attackers Tournaments and Street Fighting for Real Putting what you learn into a real context that tests how much you have learnt And much more The Making of a Guru Ileana Citaristi,2001 This Life Story Of Kelucharan Mohapatra One Of The Main Architects In The Revival Of Odissi Dance Touches All The Salient Features Of The Last Sixty Years Of The Cultural Life Of Orissa And Becomes A Story Of The Growth And Recognition Of The Dance Itself *Parents' Guide to Martial Arts* Debra M.
