The two main characters Vashti and her son Kuno live on opposite sides of the world. Vashti is content with her life which like most inhabitants of the world she spends producing and endlessly discussing secondhand ideas. Kuno however is a sensualist and a rebel. He persuades a reluctant Vashti to endure the journey and the resultant unwelcome personal interaction to his room. There he tells her of his disenchantment with the sanitised mechanical world.

**The Machine Stops by E. M. Forster Illustrated Edition** E M Forster, 2022-02-19. In a future version of planet Earth most of the human population doesn't venture above ground. Rarely do they even leave their own rooms in which all of their needs are met by the Machine. The Machine allows the humans to communicate ideas with one another which is essentially their only activity. It doesn't stop them from leaving their rooms but they have little desire to do so anyway. They've started to believe the Machine is omnipotent and omniscient not to be questioned. And when it begins to malfunction they trust that it knows what it's doing. Forgetting they invented it in the first place. From the author of *A Passage to India*, *A Room with a View* and other classic novels and a sixteen time nominee for the Nobel Prize in Literature this remarkable science fiction story which was included in a Science Fiction Hall of Fame anthology was published in 1909 yet becomes more relevant and thought provoking with each passing day of the twenty first century.
