The Macintyre Reader:

The MacIntyre Reader Alasdair C. MacIntyre, 1998 A collection of writing by one of the most controversial philosophers and social theorists of our time one who opposes liberalism and postmodernism with the teleological arguments of an updated Thomistic Aristotelian The collection includes excerpts from and his own synopses of two famous books from the 1980s After Virtue and Whose Justice Which Rationality as well as the whole of several shorter works one published for the first time in English and two interviews An introduction summarizes the development of MacIntyre's central ideas Knight is a lecturer in politics at University of North London Annotation copyrighted by Book News Inc Portland OR [Reading Alasdair MacIntyre's After Virtue](#) Christopher Stephen Lutz, 2012-03-15 Concise guide to MacIntyre's most important book After Virtue examining its arguments in detail and placing it within the broader context of MacIntyre's career

MacIntyre's After Virtue at 40 Tom Angier, 2023-10-25 Since its publication in 1981 Alasdair MacIntyre's After Virtue has been recognised as a classic Primarily a work of moral philosophy it also draws on sociology classics political science and theology to effect a unique intellectual synthesis and its combination of erudition and challenging even provocative argument has made a significant impact throughout the humanities disciplines This volume of new essays unpacks the influence of After Virtue on ethical and political theory sociology and theology and offers a multi faceted exploration of its significance The essays offer a way into MacIntyre's philosophy and demonstrate how rather than waning in influence over the past forty years his most seminal text has found an ever wider audience and continues to inspire controversy and debate in the humanities [A Liberalism Safe for Catholicism?](#) Daniel Philpott, Ryan T. Anderson, 2017-06-30 This volume is the third in the Perspectives from The Review of Politics series following The Crisis of Modern Times edited by A James McAdams 2007 and War Peace and International Political Realism edited by Keir Lieber 2009 In A Liberalism Safe for Catholicism editors Daniel Philpott and Ryan Anderson chronicle the relationship between the Catholic Church and American liberalism as told through twenty seven essays selected from the history of the Review of Politics dating back to the journal's founding in 1939 The primary subject addressed in these essays is the development of a Catholic political liberalism in response to the democratic environment of nineteenth and twentieth century America Works by Jacques Maritain Heinrich Rommen and Yves R Simon forge the case for the compatibility of Catholicism and American liberal institutions including the civic right of religious freedom The conversation continues through recent decades when a number of Catholic philosophers called into question the partnership between Christianity and American liberalism and were debated by others who rejoined with a strenuous defense of the partnership The book also covers a wide range of other topics including democracy free market economics the common good human rights international politics and the thought of John Henry Newman John Courtney Murray and Alasdair MacIntyre as well as some of the most prominent Catholic thinkers of the last century among them John Finnis Michael Novak and William T Cavanaugh This book will be of special interest to students and scholars of political

science journalists and policymakers church leaders and everyday Catholics trying to make sense of Christianity in modern society Contributors Daniel Philpott Ryan T Anderson Jacques Maritain Alvan S Ryan Heinrich Rommen Josef Pieper Yves R Simon Ernest L Fortin John Finnis Paul E Sigmund David C Leege Thomas R Rourke Michael Novak Michael J Baxter David L Schindler Joseph A Komonchak John Courtney Murray Samuel Cardinal Stritch Francis J Connell Carson Holloway James V Schall Gary D Glenn John Stack Glenn Tinder Clarke E Cochran William A Barbieri Jr Thomas S Hibbs Paul S Rowe and William T Cavanaugh **The Hauerwas Reader** Stanley Hauerwas,2001-07-23 A Stanley Hauerwas Reader including Hauerwas essays and excerpts from his books and monographs intended to provide a comprehensive introduction to his work

Reading Alasdair MacIntyre's After Virtue Christopher Stephen Lutz,2012-04-05 After Virtue is a watershed in MacIntyre's career It follows his emergence from Marxism but draws on Marxist sources and arguments It precedes his move to Thomism but already draws on Augustine and Aquinas Because of its watershed nature it has gained a wide readership in various fields but it treats a variety of issues in ways that are unfamiliar either to Marxists schooled in the social sciences or to Thomists schooled in medieval metaphysics Reading Alasdair MacIntyre's After Virtue provides a commentary that will be accessible to students valuable to scholars and useful to teachers Students will find help to navigate the two main arguments of After Virtue to understand its interpretation of history and to engage its proposal for a form of ethics and politics that returns to the tradition of the virtues Scholars will find the book useful as a general guide to MacIntyre's ethics Teachers will find a book that can help to direct their students reading and keep classroom discussions focused on the book's central concerns

trotting out tired orthodoxies Secondly by linking historical inquiry to political activism It was queried why such a conference was held in February 2006 rather than in the autumn and the answer was a simple one To intervene historically in the debates of the year by setting a socialist historical agenda for doing so The opening plenary heard from Sami Ramidani an Iraqi exile now lecturing at a British University from Stan Newens who had been present at the protests in 1956 and from Nigel Wilmott the letters editor of the Guardian but here speaking about Hungary The flavour was one both of historical recall of the events of 1956 and of contemporary political parallels Indeed during this session news came through via text message that the left wing MP George Galloway had been detained in a Cairo jail overnight and an emergency protest called at the Egyptian Embassy for later in the day The next two sessions focused on the key moments of autumn 1956 Hungary and Suez but again with new research examining their wider significance Mike Haynes looks at the origins of the Hungarian revolt in terms of workplace politics while Anne Alexander reviews the impact that Suez had on Nasser TM s reputation within the Arab world and Arab nationalist politics In the afternoon there was a widening of the focus One session examined the impact of the events of 1956 on left wing organisation and in particular the orthodox Communist or Stalinist tradition Terry Brotherton took a fresh look at the impact of 1956 on the Communist Party of GB while Toby Abse focused on how the events of that year worked their way through in the largest of the Western European CPs the Italian Alan Woodward examined how the crisis of Stalinist politics opened new possibilities for libertarian left wing ideas The other focused on the rise of a new left as a result of the crisis of 1956 Paul Blackledge examined the development of the theory of socialist humanism by E P Thompson and others as an alternative to Stalinism Neil Davidson examined the ideas of a forgotten left wing thinker from this period Alisdair Macintyre while Christian Hogsberg reviewed the influence of an existing Trotskyist theorist CLR James around the events of 1956 Of course the conference could not hope to cover the huge range of possible historical issues arising from the 50th anniversary of 1956 The beginnings of the consumer society and the age of affluence the birth of youth culture and rock TM n TM roll British nuclear tests and the origins of CND and campaigns against the bomb the new theatre marked by look back in anger TM In an introduction the editor Keith Flett reviews some of these wider trends However the research agenda proposed by the conference was and remains an important one Year-book of Australia ,1891 **Philosophy East & West ,2000** *The Advanced Class-book of Modern Geography, Physical, Political, Commercial* William Hughes (F.R.G.S.),John Francon Williams,1892 **The Christmas Bookseller** Henry Sotheran Ltd,1891 Catalogue of Printed Books ,1891 *The Journal of Education ,1936* **The Education Outlook ,1932**
