continued throughout the 20th century Prehistoric humans also populated adventure fantasy films with the original One Million B C 1940 leading the charge Documentaries were also made but it was not until the 1970s that accurate film accounts of prehistoric humans finally emerged This exhaustive work provides detailed accounts of 581 film and television productions that feature depictions of human prehistory Included are dramas and comedies set in human prehistory documentaries and films and television shows in which prehistoric people somehow exist in historical periods from the advent of civilization up to the present or in extraterrestrial settings Each entry includes full filmographic data including year of release running time production personnel cast information and format A description of each film provides background on the prehistoric elements Contemporary critical commentary is included for many of the works *New Masses* ,1938
