Sukrokuro: the name of the puzzle is made up of parts of the words Sudoku, Kropki and Kakuro. It combines elements of three puzzles: Sudoku, Sudoku points and Kakuro. The task is a square grid with white and black cells. It is necessary to fill white cells with numbers so that in each row and in each column each number from 1 to N would meet only once. In black cells the upper right value is the sum of the numbers in the row and the value from the bottom left is the sum of the column numbers below the cell. Kakuro is a logical numerical puzzle, the mathematical equivalent of a crossword puzzle. In the cells it is necessary to place the numbers from 1 to 9. There are inactive cells marked in black. In cells with given numerical values the upper right value indicates the sum of the digits in the row and the value from the lower left position is equal to the sum of the digits of the column below the cell.
