The Manuscripts of Howards End Edward Morgan Forster, Oliver Stallybrass, 1973 **The Manuscripts of Howards End** E. M. Forster, 1978-02-01 **The Manuscripts of Howards End** Edward Morgan Forster, Oliver Stallybrass, 1973

Howards End Edward M. Forster, 1973 **The Manuscripts of Howards End Correlated with Forster's Final Version**, 1973 **The Book History Reader** David Finkelstein, Alistair McCleery, 2002 The editors illustrate how book history studies have evolved into a broad approach which incorporates social and cultural considerations governing the production dissemination and reception of print and texts Forster's Revisions of the Howards End Manuscripts Mary Pinkerton, 1984 *British Literature and the Life of Institutions* Benjamin Kohlmann, 2021 Explores how late Victorian Edwardian and modernist literary texts responded and adapted to institutional change that characterized the emergence of the welfare state and links the development of the institutional forms of the state to the aesthetic forms of literary writing

The Modernist as Pragmatist Brian May, 1997 The past few years have witnessed a resurgence in the study of British literary modernism. With recent publications on modernist American poetry and increasingly appreciative attitudes toward modern British novelists like Joseph Conrad and E M Forster many scholars are experiencing a renewed interest in modernism. In *The Modernist as Pragmatist* Brian May investigates modernist works that have been until recently regarded largely as mere exercises in stale Victorian liberal ideology. Breaking from one current interpretation of Forster as an innovative and perhaps objectionable representative of modernist fictional audacity, May keenly argues that Forster is neither a traditional liberal nor an imperial modernist stylist. He is rather a pragmatic liberal critic of both unreconstructed Victorian liberalism and unreckoning modernist aestheticism. May also looks at the debate between two contemporary progressive pragmatists Richard Rorty and Cornel West who have turned to the liberalism of the past as an avenue toward the future. First clarifying the terms of the debate, May then tries to resolve it using the writings of E M Forster to discuss some of the major political and philosophical statements of Rorty and West. In turn the works of these two philosophers are used as tools to gain insight into Forster's literary texts and cultural contexts. By bringing British literary history to American neopragmatist philosophy, May allows the reader to understand both more concretely historically and imaginatively. Persuasive new readings of *A Passage to India*, *Howards End* and *The Longest Journey* are used to illustrate how Rorty and West offer a choice between pragmatisms. May's well argued study offers an exploration of how literature and philosophy can lead to a fruitful dialogue that can complement formalism as well as traditional types of contextualism. It also persuasively connects Forster to the contemporary debates between liberalism and pragmatism, making this an important contribution to all scholars of modernism. *Edwardian Bloomsbury* S. Rosenbaum, 2016-07-27 This is the second volume of a formidable enterprise and part of a series of publications by the same author that may entitle him to the position as the leading scholar of the Bloomsbury Group. Rosenbaum has managed to write with freshness and insight about Forster's novels.

no matter how much they have been analyzed before The next volume will deal with the effect of that exhibition upon the Group's writing and much more I am sure of its early literary history The work is eagerly awaited Peter Stanksy English Literature in Transition 1880-1920 Edwardian Bloomsbury is a continuation of the early literary history of the Bloomsbury Group begun with Victorian Bloomsbury but it can also be read independently as an account of the Group's interrelated writings during the first decade of the twentieth century **British Images of Germany** R. Scully, 2012-10-30 British Images of Germany is the first full length cultural history of Britain's relationship with Germany in the key period leading up to the First World War Richard Scully reassesses what is imagined to be a fraught relationship illuminating the sense of kinship Britons felt for Germany even in times of diplomatic tension **English Literature in Transition, 1880-1920**

Duckworth, 1992 In Howards End E M Forster describes Edwardian England not as a golden afternoon of Empire but as a time of conflict between nations parties classes and the sexes Forster's England is one in which a peaceful rural past encounters a frenzied urban present the countryside is threatened by urban encroachment and pollution intellectuals quarrel with businessmen art vies with sport as a recreational activity cultural tastes collide with popular tastes entrenched male power ignores or suppresses emerging female aspirations and laissez faire economic attitudes are harmful to the poor and underprivileged Such conflicts as Alistair Duckworth demonstrates pervade the novel's episodes settings conversations and commentaries On the publication of Howards End in 1910 Forster was

recognized as a major Edwardian novelist Forster's subtle characterizations narrative ironies perfectly pitched dialogues and evocative treatment of place established him in the great tradition of the English novel of manners Living in a fragmented society Forster brought new depth to that tradition he engaged the divisive issues of his time by presenting them as human encounters in domestic contexts His perspective was that of a liberal humanist in Howards End he obviously favors the progressive attitudes of the Schlegel women to the Social Darwinist behavior of the Wilcox men As a realist however he reveals not only the relative powerlessness of benevolent intellectuals to bring about social improvement but also their financial complicity in the system they oppose In its critique of commerce and culture in a swiftly changing world and in its searching exploration of sexual roles Howards End has remarkable relevance to the present Rather than arguing that Forster brings the novel's oppositions together to form an aesthetic whole and provide a satisfying political solution to the problems of his time Duckworth values Howards End for its formal diversity multiple discourses intertextual echoes and allusions and range of topics and themes He combines a close reading of Forster's text with relevant biographical considerations and comparisons of Forster's techniques with those of significant predecessors such as Jane Austen and contemporaries such as Joseph Conrad and D H Lawrence He also devotes a chapter to the critical reception of Howards End from 1910 to the present In showing how Howards End is open ended and dialogical in nature Duckworth explains the novel's continuing interest for different sorts and generations of readers and makes a valuable and distinctive contribution to Forster studies
