In the Mind Fields Casey Schwartz, 2015-08-25 Everywhere I looked it seemed that we were being defined by what our brains were doing Everywhere there were hucksters and geniuses all trying to colonize the new world of the brain I d never been a science person Casey Schwartz declares at the beginning of her far reaching quest to understand how we define ourselves Nevertheless in her early twenties she was drawn to the possibilities and insights emerging on the frontiers of brain research Over the next decade she set out to meet the neuroscientists and psychoanalysts engaged with such questions as How do we perceive the world make decisions or remember our childhoods Are we using the brain Or the mind To what extent is it both Schwartz discovered that neuroscience and psychoanalysis are engaged in a conflict almost as old as the disciplines themselves Many neuroscientists if they think about psychoanalysis at all view it as outdated arbitrary and subjective while many psychoanalysts decry neuroscience as lacking the true texture of human experience With passion and humor Schwartz explores the surprising efforts to find common ground Beginning among the tweedy Freudians of North London and proceeding to laboratories consulting rooms and hospital bedsides around the world Schwartz introduces a cast of pioneering characters from Mark Solms a South African neuropsychologist with an expertise in dreams to David Silvers a psychoanalyst practicing in New York to Harry a man who has lost his use of language in the wake of a stroke but who nevertheless benefits from Silvers s analytic technique In the Mind Fields is a riveting view of the convictions obsessions and struggles of those who dedicate themselves to the effort to understand the mysteries of inner life
