The Many Faces of Suicide

Norman L. Farberow, 1980

The Many Faces of God Walter Prucnel, 2007-08 God looked at the earth with despair He knew the future of earth was dismal it was prone to the pollutions created by man Worse yet people in many countries were killing others for their different religious beliefs Gone was the day of the cross and bow when men fought each other face to face Now many countries were making weapons that could travel great distances to kill millions This both saddened and angered Him and He knew something had to be done Should I create another flood Have everyone turned into salt No none of these would work because many souls would be sent to Hell and Satan could not accommodate that many He could

perform miracles to improve these conditions but that would take away the Earthlings freewill The only solution was for the Earthlings to improve their own fate with a little help from Him Summoning his Undergods He gave them instructions to choose a few Earthlings approach them through apparitions and give them minor powers which would aid them in their missions Thus *The Many Faces of God* begins *The Many Faces of Socialism* Paul Hollander,1983-01-01 Dealing with topics and perspectives generally neglected by American sociologists Hollander focuses on the nature of socialism and the reasons for Marxism s appeal among Western intellectuals In his new introduction to updated essays never before published in book form he also addresses issues of enduring interest in both socialist and pluralistic societies These include relationships between the private and the public techniques of social and political control the timeless tension between professed value and observed behavior and the way systems struggle for a sense of purpose in the contemporary world
