**A History of Canada in Ten Maps** Adam Shoalts,2018-05-15 Envisioning the mysterious land that would eventually be called Canada through the eyes of the explorers who first set foot on these shores A History of Canada in Ten Maps brings our stories to life Every map tells a story and every map has a purpose inviting us to go somewhere we've never been It is an account of what we know but also a trace of what we long for Like a story a map is never completely objective It records special interests and agendas It leaves important things unsaid even as it purports to lay things out clearly and indisputably We can know our

history by our maps That is what A History of Canada in Ten Maps will do This book chronicles not just the centuries of Canada's existence it conjures the world as it appeared to those who were called upon to map it What would the new world look like to Jacques Cartier who could see no farther than the treeline What would the north have looked like to Martin Frobisher confronting a sea of ice but imagining that Cathay lay just beyond What would the vastness of the country look like to a surveyor or railroad engineer or an investor in Great Britain And what rival claims to the land were left off all these maps Historical maps may tell only part of the story but they also tell us volumes about what we didn't know and hint at what we may have preferred to go unrecorded A History of Canada in Ten Maps will tell the story of the creators of these maps and also recount how they used the maps for their own ends It is a book that will surprise readers and reveal the Canada we never knew was hidden It will bring to life the characters and the disputes that forged our history by showing us what the world looked like before it entered the history books Combining storytelling cartography geography and of course history this book will show us Canada in a way we've never seen it before     **Early Printed Maps of Canada** Kenneth Andrew Kershaw,1993

**Mapping Canada's Music** Helmut Kallmann,2013-05-25 Mapping Canada's Music is a selection of writings by the late Canadian music librarian and historian Helmut Kallmann 1922-2012 Most of the essays deal with aspects of Canadian music but some are also autobiographical including one written during retirement in which Kallmann recalls growing up in a middle class Jewish family in 1930s Berlin under the spectre of Nazism Of the seventeen selected writings by Kallmann five have never before been published many of the others are from difficult to locate sources They include critical and research essays reports reflections and memoirs Each chapter is prefaced with an introduction by the editors Two initial chapters offer a biography of Kallmann and an assessment of his contributions to Canadian music The variety breadth and scope of these writings confirm Kallmann's pioneering role in Canadian music research and the importance of his legacy to the cultural life of his adopted country In the current climate of cuts to archival collections and services the publication of these essays by and about a pre-eminent collector and historian serves as a timely reminder of the importance of cultural memory     **Early**
