Superpower Rivalry in the Indian Ocean Selig S. Harrison, K. Subrahmanyam, 1989-05-04 Note for Jacket see Marketing File so 10 26 The vast politically turbulent region encompassing the Indian Ocean the Persian Gulf forty two littoral states and one third of the world's population is one of the most potentially explosive theaters of superpower rivalry In this study three American and three Indian authors reflecting different perspectives and areas of expertise examine the principal factors that have led to the escalation of superpower tensions in the region the war in Afghanistan and its spillover into the Afghanistan Pakistani borderlands the Indo Pakistani nuclear arms race ethnic tensions in Sri Lanka the Iran Iraq war Islamic fundamentalism and the rapidly growing military presence of the superpowers in the area Considering how India's emergence as a military power is influencing superpower and indigenous tensions in the region the contributors compare Indian American and Soviet interests and offer solutions for current Indian American disagreements

Superpowers at Sea Richard W. Fieldhouse, Shunji Taoka, 1989 The arms race at sea is a dangerous nuclear race which is causing growing international concern and must be brought under control What are the hard facts about the situation This book documents the realities of the competition especially the nuclearization of naval forces and dispels some of the myths surrounding the naval arms race This incisive analysis of naval forces of the East and West concludes that contrary to common perceptions the US and its allies have a considerable military advantage over the Soviet Navy a trend which is expected to continue for the foreseeable future The authors describe in detail the widespread nuclearization of naval forces of all five nuclear navies analyse the implications for security and arms control and conclude with suggestions for possible arms control measures

The Indian Ocean and the Superpowers Rasul Bux Rais, 1987-01-01 This study focuses on the political and strategic implications of the presence in the Indian Ocean of the United States and the Soviet Union The author examines the geopolitics of the region in historical perspective and describes the evolution of US and Soviet strategy in the Indian Ocean The central theme of the book is that the naval deployments of the superpowers should be seen in the context of each power's economic and security interests rather than in the context of military rivalry The book provides an incisive and comprehensive account of US and Soviet strategies in the Indian Ocean by establishing and integrating the links between the economic political and strategic dynamics of the situation

A Critical Review of Ethiopian school history textbooks* Yimegnutal Nibret, 2023-01-30 Academic Paper from the year 2023 in the subject History Africa Bahir Dar University Bahir Dar University College of Social Science course History Education language English abstract This paper argues that the superpower rivalry in the Horn of Africa has played a major role in the outbreak of the 1974 revolution in Ethiopia It contends the existing narrative in Ethiopian school history textbooks which asserts that the 1974 revolution was caused entirely by the internal political economic and social upheavals In fact the internal factors were heavy enough to cause the revolution Yet the external factor in the Ethiopian context has played a key role in triggering the internal movements Additionally the paper argues that instead of being a blessing the Horn of Africa's geostrategic importance has remained a curse and source of strife and rivalry among the peoples and states of the region by attracting superpower competition and involvement The geostrategic importance of the Horn of Africa has made the region a major scene for superpower contention in the last preceding decades Historically three main events shaped the character of the relations between the Horn of African states and the superpowers These were the Eritrean conflict 1941 1991 the Ethiopian revolution of 1974 and the Ethio Somali war of 1978 79 The Horn of Africa has always been remained as a field of contest among the superpowers due to its geostrategic significance **The 1995-96 Yemen-Eritrea Conflict Over the Islands of Hanish and Jabal Zuqar** Gareth R.
