Time and the Highland Maya Barbara Tedlock, 1992-03 Described as a landmark in the ethnographic study of the Maya this study of ritual and cosmology among the contemporary Quich Indians of highland Guatemala has now been updated to address changes that have occurred in the last decade

Ethnoecology and Medicinal Plants of the Highland Maya

John Richard Stepp, 2018-10-23 Plants play a central role in human existence Medicinal plants in particular have allowed for the continued survival of the human species This book based on over a decade of research in Southern Mexico with the Highland Maya explores the relationship between medicinal plants traditional ecological knowledge and the environment The biodiversity of the region remains among the highest in the world comprising more than 9000 plant species Over 1600 employed for medicinal uses and knowledge for approximately 600 species is widespread Medicinal plants play an overwhelmingly primary role in the daily health care of the Highland Maya Three principal objectives are addressed 1 identifying which medicinal plants are used 2 determining the role of environmental variation on use and selection of medicinal plants and 3 identifying which habitats are preferred for medicinal plant procurement Findings demonstrate the overwhelming importance of human modified environments for medicinal plants Explanations are presented from human ecology and biochemical ecology Implications for conservation health and the environment are discussed

Medical

Ethnobiology of the Highland Maya of Chiapas, Mexico Elois Ann Berlin, Brent Berlin, 2015-03-08 Whereas most previous work on Maya healing has focused on ritual and symbolism this book presents evidence that confirms the scientific foundations of traditional Maya medicine Data drawn from analysis of the medical practices of two Mayan speaking peoples the Tzeltal and Tzotzil reveal that they have developed a large number of herbal remedies based on a highly sophisticated understanding of the physiology and symptomatology of common diseases and on an in depth knowledge of medicinal plants Here Elois Ann Berlin and Brent Berlin along with their many collaborators provide detailed information on Maya disease classification symptomatology and treatment of the most significant health conditions affecting the Highland Maya the gastrointestinal diseases The authors base their work on broad ranging comparative ethno medical and ethnobotanical data collected over seven years of original field research In describing the Mayas understanding and treatment of gastrointestinal diseases Berlin and Berlin show that the plants used as remedies are condition specific Moreover laboratory studies demonstrate that the most commonly agreed upon herbal remedies are potentially effective against the pathogenic agents underlying specific diseases and that they strongly affect the physiological processes associated with intestinal peristalsis These findings suggest that the traditional Maya medical system is the result of long term explicit empirical experimentation with the effects of herbal remedies on bodily function Originally published in 1996 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in

durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 *The Highland Maya* Roland Bunch,1977 Well complimented with photographs this narrative offers a rounded perspective on the Maya and their changing way of life *Time & the Highland Maya* Tedlock Barbara,1985 **The Highland Maya in Fact and Legend** Marshall N. Peterson,1999 **The Highland Maya** Roland Bunch,1977 The War for the Heart and Soul of a Highland Maya Town Robert S. Carlsen,Martín Prechtel,1997 After a decade of military occupation known as la violencia the Tz'utujil speaking Maya of Santiago Atitlan stood up to the Guatemalan Army in 1990 and forced it to leave their town Yet that act of solidarity did not close the widening internal divisions that threaten to destabilize the community from within Ironically after 500 years of resistance to physical and spiritual conquest many Atitecos now seem eager to abandon traditional Mayan culture In this compelling ethnography Robert S Carlsen explores the issue of cultural continuity and change as it has unfolded in this representative Mayan community Drawing on documentary evidence he argues that local Mayan culture survived the Spanish Conquest remarkably intact and continues to play a defining role in the religious and social life of the community At the same time however he shows how the twentieth century consolidation of the Guatemalan state has steadily eroded the capacity of Mayan communities to adapt to change and has caused some local factions to reject even demonize their own culture This book reflects fifteen years of field research in Atitlan where Carlsen learned Tz'utujil was accepted into a local cofradia Mayan Catholic religious society and was a first hand witness to la violencia It thus presents a rare insider's perspective *A Missionary Directed Resettlement Project Among the Highland Maya of Western Guatemala* James Arthur Morrissey,1978 Zacualpa, El Quiche, Guatemala, an Ancient Provincial Center of the Highland Maya Robert Wauchope,1975 Women and Alcohol in a Highland Maya Town Christine Eber,1995 In this well written ethnography Christine Eber weaves together the critical issues of gender relations religious change domestic violence and drinking in highland Chiapas This is a fine ethnography that is a must read for all interested in gender relations in contemporary Latin America It is also one of the best current discussions on the little studied phenomenon of religious change in Mexico Eber also provides a wonderful model of how to write a readable ethnography that treats its subjects with dignity and respect and honestly integrates the trials and tribulations of the ethnographer in the process Journal of the Royal Anthropological Institute Women and Alcohol is a book worth reading The book's informal tone and interesting topic make it appealing to a wide audience including casual readers and undergraduate classes Furthermore Eber's cross cultural insight into alcohol dependency is relevant not only for anthropologists but also for health care professionals and others who deal with substance abuse Latin American Indian Literatures Journal Healing roles and rituals involving alcohol are a major source of power and identity for women and men in Highland Chiapas Mexico where abstention from alcohol can bring a loss of meaningful roles and of a sense of community Yet as in other parts of the world alcohol use sometimes leads to abuse

whose effects must then be combated by individuals and the community In this pioneering ethnography Christine Eber looks at women and drinking in the community of San Pedro Chenalho to address the issues of women s identities roles relationships and sources of power She explores various personal and social strategies women use to avoid problem drinking including conversion to Protestant religions membership in cooperatives or Catholic Action and modification of ritual forms with substitute beverages The book s women centered perspective reveals important data on women and drinking not reported in earlier ethnographies of Highland Chiapas communities Eber s reflexive approach blending the women s stories analyses songs and prayers with her own and other ethnographers views shows how Western individualistic approaches to the problems of alcohol abuse are inadequate for understanding women s experiences with problem and ritual drinking in a non Western culture In a new epilogue Christine Eber describes how events of the last decade including the Zapatista uprising have strengthened women s resolve to gain greater control over their lives by controlling the effects of alcohol in the community

Pottery Ethnoarchaeology in the Central Maya Highlands Michael Deal,1998 Draws upon both archaeological and ethnographic techniques to study prehistoric cultural change village ethnoarchaeology focuses on a range of archaeological problems at the village or household level including the important socioeconomic role of specific craft activities In this context recent studies of contemporary pottery making follow trends in ethnoarchaeology involving model building formation processes and evaluation and refinement of existing archaeological recovery techniques

Highland Maya Folk Medicine William Robert Holland,1961 **Lithic Studies Among the Contemporary Highland Maya** Brian Hayden,1987 A History of the Highlands and the Highland clans James Browne,1873 **Archaeology, Ethnohistory, and Ethnoarchaeology in the Maya Highlands of Chiapas, Mexico** ,1988 Maya Culture & Costume Christine

Conte,Jonathan Batkin,Cathy Wright,1984 *The Past and Present Maya* John M. Weeks,2001 **Dream Symbolism and Interpretation Among the Lacandon Mayas of Chiapas, Mexico** Roberto D. Bruce S.,1975 **Maya Textile Tradition**
