Encyclopedia of Historians and Historical Writing Kelly Boyd, 2019-10-09 The Encyclopedia of Historians and Historical Writing contains over 800 entries ranging from Lord Acton and Anna Comnena to Howard Zinn and from Herodotus to Simon Schama Over 300 contributors from around the world have composed critical assessments of historians from the beginning of historical writing to the present day including individuals from related disciplines like Jürgen Habermas and Clifford Geertz whose theoretical contributions have informed historical debate Additionally the Encyclopedia includes some 200 essays treating the development of national regional and topical historiographies from the Ancient Near East to the history of sexuality In addition to the Western tradition it includes substantial assessments of African Asian and Latin American historians and debates on gender and subaltern studies **Vertellers op drift** P. H. H. Vries, 1990 Het proces van de herwaardering voor de verhalende geschiedbeoefening **Civil Society and Memory in Postwar Germany** Jenny Wüstenberg, 2017-09-07 Blending history and social science this book tracks the role of social movements in shaping German public memory and values since 1945 Drawn from extensive original research it offers a fresh perspective on the evolution of German democracy through civic confrontation with the violence of its past Told through the stories of memory activists the study upends some of the conventional wisdom about modern German political history An analysis of the decades long struggle over memory and democracy shows how grassroots actors challenged and then took over public institutions of memorialization In the process confrontation of the Holocaust has been pushed to the centre of political culture In unified Germany memory politics have shifted again as activists from East Germany have brought attention to the crimes of the East German state This book delivers a novel and important contribution to scholarship about postwar Germany and the wider study of memory politics *Public History* Thomas Cauvin, 2022-05-18 The second edition of Public History A Textbook of Practice offers an updated guide to the many opportunities and challenges that public history practitioners can encounter in the field Historians can play a dynamic and essential role in contributing to public understanding of the past and those who work in historic preservation in museums and archives in government agencies as consultants as oral historians or who manage crowdsourcing projects need very specific skills This book links theory and practice and provides students and practitioners with the tools to do public history in a wide range of settings This new edition reflects how much the field of public history has changed in the past few years with public history now being more established and international New chapters have therefore been added on the definition history and international scope of public history as well as on specific practices and theories such as historical fictions digital public history and shared authority Split into four sections this textbook provides approaches methodologies and tools for historians and other public history practitioners to play a bigger role in public debates and public productions of historical interpretations Part I focuses on the past present and future of

public history Part II explores public history sources and offers an overview of the creation collection management and preservation of materials archives material culture oral history or historical sites Part III deals with the different ways in which public history practitioners can produce historical narratives through different media including texts fictions audio visual productions exhibitions and performances Part IV discusses the opportunities and challenges that public history practitioners encounter when working with different collaborators Whether in public history methods courses or as a resource for practicing public historians this book lays the groundwork for making meaningful connections between historical sources and popular audiences

Transatlantic Radicals and the Early American Republic Michael Durey, 1997 In the transatlantic world of the late eighteenth century easterly winds blew radical thought to America Thomas Paine had already arrived on these shores in 1774 and made his mark as a radical pamphleteer during the Revolution In his wake followed more than 200 other radical exiles English Dissenters Whigs and Painites Scottish lads o parts and Irish patriots who became influential newspaper writers and editors and helped change the nature of political discourse in a young nation Michael Durey has written the first full scale analysis of these radicals evaluating the long term influence their ideas have had on American political thought Transatlantic Radicals uncovers the roots of their radicalism in the Old World and tells the story of how these men came to be exiled how they emigrated and how they participated in the politics of their adopted country Nearly all of these radicals looked to Paine as their spiritual leader and to Thomas Jefferson as their political champion They held egalitarian anti federalist values and promoted an extreme form of participatory democracy that found a niche in the radical wing of Jefferson's Republican Party Their divided views on slavery however reveal that democratic republicanism was unable to cope with the realities of that institution As political activists during the 1790s they proved crucial to Jefferson's 1800 presidential victory then after his views moderated and their influence waned many repatriated others drifted into anonymity and a few managed to find success in the New World Although many of these men are known to us through other histories their influence as a group has never before been so closely examined Durey persuasively demonstrates that the intellectual ferment in Britain did indeed have tremendous influence on American politics His account of that influence sheds

considerable light on transatlantic political history and differences in religious political and economic freedoms Skillfully balancing a large cast of characters Transatlantic Radicals depicts the diversity of their experiences and shows how crucial these reluctant migrants were to shaping our republic in its formative years *The Journal of Education* ,1892 **Colonial civil service: the selection and training of colonial officials in England, Holland and France, with an account of the East India college at Haileybury by H.M. Stephens** Abbott Lawrence Lowell,1900 *Frontier Feminist* Marilyn S. Blackwell,Kristen Tegtmeier Oertel,2010 This comprehensive portrait of nineteenth century reformer Clarina Howard Nichols uncovers the fascinating story of a complex woman and reveals her important role in women's rights antislavery and westward expansion **Talkin' Socialism** Elliott Shore,1988 In this history of radical publishing at the turn of the century Elliott Shore focuses on the Appeal to Reason the flagship newspaper of J A Wayland's publishing empire As modern periodical publishing came of age with the appearance of the first mass circulation newspapers and magazines so too did both populism and socialism in the US They drew strength from the same factors the advance of technology spreading industrialisation the growth and concentration of urban populations and rising literacy rates *Modern Training and Handling* Bernard Waters,1894
