*Guardians of the Tradition* James De Lorenzi, 2015 Ethiopia and Eritrea are home to Africa's oldest written historical tradition which began in the third century with the monuments and manuscripts of Aksum and has continued to the present day This study explores the development of this rich tradition focusing in particular on the dramatic lives and original thought of a group of early twentieth century Ethiopian and Eritrean historians James De Lorenzi examines how these scholars used historiography to not only record the past but also grapple with the changes of the modern era Through their history writings they made provocative political claims explored the nature of their communal ties assessed their inherited institutions and ideas and critically evaluated the people and cultures of the wider world Opposing the view that historiography is a uniquely Western intellectual pursuit *Guardians of the Tradition* provides new evidence of an African historical consciousness and the vibrancy of history writing outside the West James De Lorenzi is associate professor of history at John Jay College City University of New York

**Hopeless Romantic** Dawit Muluneh, 2021-10-27 Right now there is a bloody civil war in Ethiopia that is discussed on CNN BBC and FOXNEWS And this book aims to shift these discussions back to the late antique period when Ethiopia was one of the greatest empires in the world and to 1930s when the fascists entered Ethiopia because that is the root cause of the war that is happening today Ethiopia has a secret history and no one is focusing on this The book attempts to shed light on these points by surveying historical events which leads up to about the sixteenth century with few exceptions This time period was selected as the termination point because many sources are available for events dealing with the past two to three centuries of history Hence people who are interested in this timeline can easily access the particular era that interests them In this early part of history we see how Ethiopia was a great superpower who traded with Egyptians the Middle East India Greeks Romans and Persians Trading with such influential regions made the country rich and powerful This nation was so great that the third century prophet Mani mentioned that Ethiopia was one of the four great empires of the time along with Rome China and Persia Regrettably this great story is seldomly related to our generation because fascists who came into Ethiopia in the 1930s with the intent of forcefully taking

natural resources ex ivory gold copper stole the history of Ethiopia The second aim of the book deals with how in the late 19th century as the Europeans started to carve up Africa Italy chose Ethiopia Unfortunately for the colonizers Italy became the only European country to lose to an African nation As a result Italy lost respect from other European nations Newspapers at the time shamed Italy for losing to a nation of black people Needless to say Italy wanted revenge They got their chance with Benito Mussolini and the fascists Mussolini sent researchers like Carlo Conti Rossini and Enrico Cerulli to study the best way to conquer Ethiopia These men studied Ethiopian religion ethnicity and language the same way the Nazis studied the Jewish community to see the most efficient way to divide and conquer them The real tragedy happened when the original research of Conti Rossini and Cerulli became seen as the official history The research they conducted unfortunately found its way into western universities wherein they are being studied to this day Their writings became the authoritative history of Ethiopia Regrettably present day Ethiopians are now killing each other because of ethnic and religious differences which the Italians wrote was the central cause of conflict in their country The second section of the book is a fable meant to highlight the negative impact of ethnic divisions in Ethiopia As the reader will recognize the style and voice of this section is unique compared with the previous sections Perhaps the most distinctive feature is that the fable's main character is a fictional talking mouse named Sammy This mouse and the journey he embarks on are meant to serve as a metaphor for our present state of affairs The secondary goal of this book is to change our attitude of learning about history Often times history is told in a dry and uninteresting way that is off putting to young people Especially when it comes to the history of Ethiopia we often shy away from telling our story for fear of insulting others In reality history does not have to be dull or contentious It can be enjoyable and unifying The way a story is told is arguably just as important as the story being told With that being said the author has decided to tell the story of Ethiopia through the symbolic lens of the love that exists between a husband and wife By employing such a rhetorical device the author attempts to tell the story of Ethiopia in a way that is digestible for everyone After all who doesn't love a good love story      Ethiopians Richard Pankhurst, 1998-10-23 The book opens with a review of Ethiopian prehistory showing how the Ethiopian section of the African Rift Valley has come to be seen as the cradle of humanity      **A History of Modern Ethiopia, 1855-1991** Bahru Zewde, 2001 Bahru Zewde has updated the first edition adding a new chapter and taking the history through to 1991 Publisher's description      *A History of Modern Ethiopia, 1855-1974* Bahru Zewde, 1991      Ethiopia and the Origin of Civilization John G. Jackson, In Ethiopia and the Origin of Civilization John G Jackson challenges the Eurocentric view of ancient history and presents compelling evidence for the significant role played by African civilizations in the development of human culture Through meticulous research and analysis Jackson reveals the often overlooked contributions of Ethiopia and other African societies to the fields of religion philosophy and science This thought provoking work invites readers to reconsider their understanding of the origins of civilization and recognize the importance of Africa in shaping world history      The History of Ethiopia 'Bisi Oyegoke, 1982      **Ethiopian**

**Elites' Political Cultures: a critical juncture** Solomon Hailemariam PhD, 2025-05-09 Recurrent ethnic conflicts have been seen in Ethiopia especially during the last three decades since the introduction of a governance structure of ethnic federalism in 1991 Attempts to bring political stability to the country have not been successful as competing political cultures constantly struggle for hegemony Political constituencies have fragmented based on sub national political cultures This book shows the influence of Amhara Oromo and Tigrayan political cultures in Ethiopia and their contribution to the recurrent ethnic conflict in the country The book used the concepts of political culture and neo patrimonialism as analytical tools to understand the differences among and between the educated people from these ethnic groups The findings show that members of each ethnic group are deeply entrenched in their own culture with clear distrust of the political motives of other ethnicities Beyond the disagreements on political history the educated elites accuse each other when it comes to the many challenges faced by the country They accuse each other of state capture corruption inciting ethnic conflicts malpractice poor governance misguided policies divide and rule practices and misappropriation of the nation's economic wealth The elites themselves do not shoulder responsibility for any failure in the country and do not show any interest in understanding other points of view do not show sincere respect for the other's value but claim privileged political positions in present day Ethiopia for past accomplishments

**Ethiopia in Transit** Pietro Toggia, Abebe Zegeye, 2013-10-18 The writings in this edition explore historical and contemporary issues in Ethiopia as the country underwent change and celebrated its new millennium However despite the recognizance of socio economic and political changes Ethiopia still faces enduring problems and challenges to its stability and continuity The political past haunts the country while it is facing the future with optimism and hope The contributors in this edition examine historical and contemporaneous issues with different lenses they investigate the multiplicity and complexity of the contradictions that define traditional and modern Ethiopia The contributions highlight the significance of the instability dislocation conflict and transformation inherent in any society None of these writings however celebrate the forces that create the conflict they are cautious not to glorify the present and romanticize the past On the contrary they seek to contextualize the challenges which the country faces with a view to open a dialogue not exclusively among Ethiopians but with scholars and social activists in the rest of Africa as well as the international community The contributions cover and examine such important topics as historiography political power and legitimacy ideology and radical views knowledge transmission and modernity emigration and the Ethiopian Diaspora ethnic and linguistic identity patriarchy and feminist discourses in a traditional society public policies and economic development traditional and modern art and culture and neo liberalism and globalization This book was published as a special issue of *African Identities*

**Pedro Páez's History of Ethiopia, 1622** Hervé Pennec, Dr Isabel Boavida, Dr Manuel João Ramos, 2013-07-28 This book in two volumes contains the first English translation with introduction and annotation of the *Hist ria da Eti pia* by the Spanish Jesuit missionary priest Pedro P éz 1564 1622 who worked in the Portuguese missions first

in India and then in Ethiopia long thought to be the kingdom of the legendary Prester John Paez's learned but often polemical work is a major contribution to the political social cultural and religious history of Ethiopia in the sixteenth and early seventeenth centuries and to the history of early Portuguese and Spanish missions in Africa and India and West European attempts to come to terms with non European cultures

**Historical Dictionary of Ethiopia** David H. Shinn, Thomas P. Ofcansky, 2013-04-11 Ethiopia is clearly one of the most important countries in Africa First of all with about 75 million people it is the third most populous country in Africa Second it is very strategically located in the Horn of Africa and bordering Eritrea Sudan Kenya and Somalia with some of whom it has touchy and sometimes worse relations Yet its capital Addis Ababa is the headquarters of the African Union the prime meeting place for Africa's leaders So if things went poorly in Ethiopia this would not be good for Africa and for a long time this was the case with internal disruption rife until it was literally suppressed under the strong rule of the recently deceased Meles Zenawi The Historical Dictionary of Ethiopia Second Edition covers the history of Ethiopia through a chronology an introductory essay appendixes and an extensive bibliography The dictionary section has several hundred cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent access point for students researchers and anyone wanting to know more about Ethiopia
