Martin,2016-03-09 Working at the forefront of cosmetic surgery at the turn of the twentieth century Dr Suzanne Noël was both a pioneer in her medical field and a firm believer in the advancement of women. Today her views on the benefits of aesthetic surgery to women may seem at odds with her feminist principles but by placing Noël in the context of turn of the century French culture this book is able to demonstrate how these two worldviews were reconciled. Noël was able to combine her intense convictions for gender equality and anti ageism in the workforce with her underlying compassion and concern for her female patients during a time when there were no laws in place to protect women from workplace discrimination. She was also responsible for several advances in cosmetic surgery a thriving industry and is today best known for her development of the mini facelift. This book therefore sheds much valuable light on advances in aesthetic surgery twentieth century beauty culture women and the public sphere and the new woman **Dubious Equalities and Embodied Differences** Kathy Davis,2003-10-01 Dubious Equalities and Embodied Differences explores cosmetic surgery as a cultural phenomenon of late modernity. From its onset as a medical specialty at the end of the nineteenth century cosmetic surgery has been intimately linked to discourses of normalcy as well as to gender race and other categories of difference that have shaped its technologies and techniques its professional ideologies and the objects of its interventions. Davis considers how cosmetic surgery is taken up in representations of cosmetic surgery in medical discourse and in popular culture drawing on a wide range of cultural manifestations including televised infotainment popular music performance art surgeon biographies stories of patients public debates and medical texts.
