BESTSELLER One juror changed the verdict What if she was wrong From the Academy Award winning screenwriter of The Imitation Game and bestselling author of The Last Days of Night An ID Book Club Selection In development as a limited series starring and executive produced by Amy Adams Exhilarating a fiendishly slippery game of cat and mouse suspense and a provocative urgent inquiry into American justice and injustice in the twenty first century A J Finn 1 New York Times bestselling author of The Woman in the Window It s the most sensational case of the decade Fifteen year old Jessica Silver heiress to a billion dollar real estate fortune vanishes on her way home from school and her teacher Bobby Nock a twenty five year old African American man is the prime suspect The subsequent trial taps straight into America s most pressing preoccupations race class sex law enforcement and the lurid sins of the rich and famous It s an open and shut case for the prosecution and a quick conviction seems all but guaranteed until Maya Seale a young woman on the jury convinced of Nock s innocence persuades the rest of the jurors to return the verdict of not guilty a controversial decision that will change all their lives forever Flash forward ten years A true crime docuseries reassembles the jury with particular focus on Maya now a defense attorney herself When one of the jurors is found dead in Maya s hotel room all evidence points to her as the killer Now she must prove her own innocence by getting to the bottom of a case that is far from closed As the present day murder investigation entwines with the story of what really happened during their deliberation told by each of the jurors in turn the secrets they have all been keeping threaten to come out with drastic consequences for all involved

Data Mining,

Southeast Asia Edition Jiawei Han,Jian Pei,Micheline Kamber,2006-04-06 Our ability to generate and collect data has been increasing rapidly Not only are all of our business scientific and government transactions now computerized but the widespread use of digital cameras publication tools and bar codes also generate data On the collection side scanned text and

image platforms satellite remote sensing systems and the World Wide Web have flooded us with a tremendous amount of data This explosive growth has generated an even more urgent need for new techniques and automated tools that can help us transform this data into useful information and knowledge Like the first edition voted the most popular data mining book by KD Nuggets readers this book explores concepts and techniques for the discovery of patterns hidden in large data sets focusing on issues relating to their feasibility usefulness effectiveness and scalability However since the publication of the first edition great progress has been made in the development of new data mining methods systems and applications This new edition substantially enhances the first edition and new chapters have been added to address recent developments on mining complex types of data including stream data sequence data graph structured data social network data and multi relational data A comprehensive practical look at the concepts and techniques you need to know to get the most out of real business data Updates that incorporate input from readers changes in the field and more material on statistics and machine learning Dozens of algorithms and implementation examples all in easily understood pseudo code and suitable for use in real world large scale data mining projects Complete classroom support for instructors at www.mkp.com/datamining2e companion site **Machine Learning** Claude Sammut,Achim Günther Hoffmann,Achim Hoffmann,2002 [KDD ... ,2006](http://www.kdd.org/2006)

The Colorado Magazine ,1893 **Public Finance** Randall G. Holcombe,1996 **Education for Extinction** David Wallace Adams,1995 The last Indian War was fought against Native American children in the dormitories and classrooms of government boarding schools Only by removing Indian children from their homes for extended periods of time policymakers reasoned could white civilization take root while childhood memories of savagism gradually faded to the point of extinction In the words of one official Kill the Indian and save the man Education for Extinction offers the first comprehensive account of this dispiriting effort Much more than a study of federal Indian policy this book vividly details the day to day experiences of Indian youth living in a total institution designed to reconstruct them both psychologically and culturally The assault on identity came in many forms the shearing off of braids the assignment of new names uniformed drill routines humiliating punishments relentless attacks on native religious beliefs patriotic indoctrinations suppression of tribal languages Victorian gender rituals football contests and industrial training Especially poignant is Adams s description of the ways in which students resisted or accommodated themselves to forced assimilation Many converted to varying degrees but

others plotted escapes committed arson and devised ingenious strategies of passive resistance Adams also argues that many of those who seemingly cooperated with the system were more than passive players in this drama that the response of accommodation was not synonymous with cultural surrender This is especially apparent in his analysis of students who returned to the reservation He reveals the various ways in which graduates struggled to make sense of their lives and selectively drew upon their school experience in negotiating personal and tribal survival in a world increasingly dominated by white men The discussion comes full circle when Adams reviews the government s gradual retreat from the assimilationist vision Partly because of persistent student resistance but also partly because of a complex and sometimes contradictory set of progressive humanitarian and racist motivations policymakers did eventually come to view boarding schools less enthusiastically Based upon extensive use of government archives Indian and teacher autobiographies and school newspapers Adams s moving account is essential reading for scholars and general readers alike interested in Western history Native American studies American race relations education history and multiculturalism
