## **The Human Side Of The Saints:**

**The Human Side of Mergers and Acquisitions** Anthony F. Buono, James L. Bowditch, 2003 This eye opening study based on the authors direct and personal observation of a bank merger has three basic analytical focuses the human issues presented by mergers at both an individual and a cultural level the organizational issues that these human concerns raise and the resulting implications for managing the merger and acquisition process With keen insight the authors delve into a complex web of reactions The intrigues cultural clashes hostilities and tensions that emerged from this friendly merger are mind boggling The dynamics that characterized the dual nature of the merger run the gamut of human responses to a stressful situation trust and betrayal openness and deception hope and despair support and retaliation all driven by nascent opportunities or restricted options This impressive study has many lessons to teach about the role that human resource considerations should play in any large scale organizational change
