## **Surfing The Zeitgeist:**

**Surfing the Zeitgeist** Gilbert Adair,2014-10-16 Surfing the Zeitgeist is a collection of essays by Britain's preeminent post modernist Confronted with a world in which too much is changing too fast the attitude of most British critics is simply to ignore the fact that today's culture is in a state of constant ebullience and continue turning out or churning out week after week month after month the kind of article a complacent conflation of artistic impressions that could have been written thirty fifty or a hundred years ago Gilbert Adair is a critic with a difference Witty perspicacious and in love with language he is prepared to engage with the multifarious realities of our culture culture in the least restricted sense of the word He is prepared to embrace them if not unconditionally then at least without encumbering himself with any twinges of nostalgia for the past's redundant credos and repertoires The essays which make up this collection on subjects as various as postmodernism and pop music AIDS and art movies Tintin and the Titanic thus constitute a uniquely stimulating record of the nineties and like the cool glinting surfaces of a Calder mobile reflect the most significant fragments of our cultural agenda

**Meaning and International Relations** Peter Mandaville,Andrew Williams,2015-04-15 This innovative volume brings together specialists in international relations to tackle a set of difficult questions about what it means to live in a globalized world where the purpose and direction of world politics are no longer clear cut What emerges from these essays is a very clear sense that while we may be living in an era that lacks a single universal purpose ours is still a world replete with meaning The authors in this volume stress the need for a pluralistic conception of meaning in a globalized world and demonstrate how increased communication and interaction in transnational spaces work to produce complex tapestries of culture and politics Meaning and International Relations also makes an original and convincing case for the relevance of hermeneutic approaches to understanding contemporary international relations
