**Heart Conditions** Vanda Millien,2000-09 For many years I have received requests at my seminars and workshops for a book containing the teachings I have been so privileged to deliver over the last fifteen years As I do with all situations I asked for a sign that this proposed book was in accordance with Divine Will and would manifest at the appropriate time Just one week later at the end of a meeting a lady who is also an author suggested the teachings be put in book form Hence Heart Conditions was born Everyone has a heart condition whether spiritual physical or both This book will help you to recognize your heart condition and consequently to change it by shifting your spiritual and physical chemistry through forgiveness compassion and love The teachings are simple stories taken from the experiences and heartbreaks in my life suggesting how we can collectively transmute our life experiences into personal mastery It is time for us all to leave behind the repressive conditioning and opinions of society and change our own heart conditions by allowing forgiving and loving This collection of stories will help you to be courageous enough to take responsibility for who you are and to live your own truth triumphantly

military pilots who risk their lives protecting our country or commercial pilots who wing their way across the world  
transporting us from one place to the other or general pilots who daily perform tasks that can only be done from the air We  
owe all of these pilots a great respect and gratitude for the job that they do Most of the books written are about them This  
book is about the private pilot who is the average man or woman who does not intend to risk their lives flying an airplane  
This book is about those people who simply want to take to the air for the joy of being airborne and for the intellectual  
challenge of keeping up with the birds If I thought for a moment that flying was not safe I would not step into an airplane For  
years I felt that flying was for the foolhardy until by chance I discovered that flying is safer than driving a car if you learn  
how to fly and follow the rules This book attempts to describe the transition from becoming a land person to becoming an air  
person and the pleasures experienced on the way John O Lewis My first adventure with John as an airplane pilot gave me the  
surprise of my life After vehemently refusing to go flying with him I agreed once and for all to join him in the cockpit for a  
brief tour around Chicago Once airborne my imagined fears were replaced by sheer joy of seeing the sights and realizing the  
wonders both above and below This initial flight was the beginning of adventures of our lifetime Never again was any coaxing  
on his part needed for me to join him on flights Edna M Lewis      *The Municipal Journal and Public Works Engineer* ,1952
