## **The Home Planet:**

**ETs on Earth, Volume Two** Robert Shapiro, 2013-04-01 You've noticed lately haven't you that for the past few years UFOs and phenomena in the skies are all over the place Well hold on to your hats You can be pretty sure this is only going to increase in its frequency in the skies In this book you'll be able to read a little bit about who the beings in the UFOs are where they're from why they're here and so on In the future it won't just be airplane pilots reporting on these things You'll be talking about it among yourselves because regular folks just like you will be seeing these ships This time don't keep it quiet Just talk about it with your neighbors or your friends online It gives other people permission to believe what they saw People have been taught you know not to believe what they see So you can believe it it's real [Animal Souls Speak](#) Robert Shapiro, 2007 Arcturus is the name given to the star system some thirty seven light years from our own It includes at least a half dozen planetary bodies and is many times larger and much older than our own star and its system Arcturian involvement with our system began over three million years ago when a space colony a galactic space station was established on Velatropa 24 4 otherwise known as Mars With its 40 000 year warm cycles Mars provided the perfect experimental way station If anything went wrong at least those on the Arcturus system would not be affected or so it was thought Some of those in command of the Martian project had not considered carefully enough the inexorable efficacy of karma the law of cause and effect By the time strange events began to transpire on Mars little did anyone on Mars or Arcturus reckon the strange consequences of forgetting about each other's mutual existence Thus unfolds the tale of the Arcturian experimental way station V 24 4 otherwise known as [At Home on an Unruly Planet](#) Madeline Ostrander, 2022-08-02 One of Kirkus Reviews 100 Best Nonfiction Books of 2022 A gold Nautilus Book Award winner Ecology Environment From rural Alaska to coastal Florida a vivid account of Americans working to protect the places they call home in an era of climate crisis How do we find a sense of home and rootedness in a time of unprecedented upheaval What happens when the seasons and rhythms in which we have built our lives go off kilter Once a distant forecast climate change is now reaching into the familiar threatening our basic safety and forcing us to reexamine who we are and how we live In [At Home on an Unruly Planet](#) science journalist Madeline Ostrander reflects on this crisis not as an abstract scientific or political problem but as a palpable force that is now affecting all of us at home She offers vivid accounts of people fighting to protect places they love from increasingly dangerous circumstances A firefighter works to rebuild her town after catastrophic western wildfires A Florida preservationist strives to protect one of North America's most historic cities from rising seas An urban farmer struggles to transform a California city plagued by fossil fuel disasters An Alaskan community heads for higher ground as its land erodes Ostrander pairs deeply reported stories of hard won optimism with lyrical essays on the strengths we need in an era of crisis The book is required reading for anyone who wants to make a home in the twenty first century [ETs on Earth, Volume 3](#) Robert Shapiro, 2016-03-16 Many of you are ready to welcome ETs if not in your personal lives at least interchanging with

element bodies in large groups Some of you are prepared to shake hands Even a few want hugs But it may not be that personal There are circumstances coming up in your now evolution toward your natural selves that make it almost imperative to have contact of a benevolent nature between Earth people and extraterrestrials For now many ETs are shy about coming here They will at some risk to themselves from time to time show you images of themselves figuratively in the skies you will see them defined by clouds or you will see something that reminds you of ships I m not just referring to lenticular clouds It will be a cloud form often all by itself in the sky that reminds you of a ship and has details that could be nothing but So look for that all over the planet and don t be afraid As your cousins which is the way they see themselves the ones you are most likely to meet ETs recognize that you are a version of their extended family So read this book You will find many reminders of who you might have been or who you might be in other lives or who your extended family is now Plant Souls Speak Robert Shapiro,2011-08-01 Plant Energies Available to You Live Plant 100% Dead Plant 10% What we intend to speak about in this book if I may speak in general for all plants is how you as the human species can interact with plants in a more benevolent way For a long time you have been clear about the medicinal uses of leaves and stems and seeds and flower petals and so on but you are only getting about one tenth of the energy available to you in this way It is always better to interact with the plant and its energies in its live form but you need to know how The intention of this book is to reveal that formula so that you can stop searching for magical cures to diseases by exhausting the supply of life forms around you A much simpler process is available This book will not just comment on things you know about but show you what you are missing in your interaction with plants Dandelion In this book the plant world will speak through elders This has certain advantages allowing them to include knowledge and wisdom about their home planets In this way you will learn some of the old wisdom again shared so that you can discover how to interact with the plants while they are alive while they are a portion of the Creator of All Things With this you will learn the beginnings the reminders and for many of you the fulfillment of the transformation of that which does not work in your body in your life in your community and in your world the transformation of what you call dis ease or disharmony into harmony and ease Zoosh Isis and Grandfather Each plant brings a wondrous gift to share with humanity enjoy it **The Drones** WTF Publishing,2008-03-01 **The Home Planet** Kevin W.
