Yvon Wang, 2022-08-22 This book translates and contextualizes the recollections of men and women who built lived and worked in some of the factory compounds relocated from China's most cosmopolitan city Shanghai Small Third Line factories became oases of relatively prosperous urban life among more impoverished agricultural communities These accounts plus the guiding questions contextual notes and further readings accompanying them show how everyday lives fit into the sweeping geopolitical changes in China and the world during the Cold War era Furthermore they

reveal how the Chinese Communist Party's military industrial strategies have shaped China's economy and society in the post Mao era. The approachable translations and insight into areas of life rarely covered by political or diplomatic histories like sexuality and popular culture make this book highly accessible for classroom use and the general interest reader. Chinese and English dictionary Walter Henry Medhurst, 1843      **Scribner's Monthly, an Illustrated Magazine for the People**, 1900      Bibliography of Asian Studies and Languages Pauline Haldane, 1990      Crime and Control in China Børge Bakken, 2022-10-12. China is a transitional society with one of the highest inequality rates in the world. Criminologists would typify this as a highly toxic combination creating very high levels of crime. Yet China reports extremely low crime rates. How might this be? With this book Børge Bakken shows that the reality in China does not match the rosy picture of low crime and rule by law that the authorities present to the world. Looking beyond the statistics Bakken discovers that violent crime is a particularly sensitive issue deliberately censored by party propaganda and by an unaccountable police force that can vanish any type of crime to a degree that makes a crime rate a mere formality. As Bakken reveals official Chinese crime statistics cannot be used to make assumptions about China's crime profile. Even the assumption that crime represents the problem and control its solution is not valid. Bakken argues. Because when control becomes part of the problem the false assumption of a harmonious society evaporates rendering harmony a myth and violence the traumatic reality. This meticulous investigation of crime and justice in China is crucial reading for those interested in the Chinese regime and China's state control as well as criminologists and sociologists of crime.      **Index to Australian Book Reviews**, 1980.
