**The Formation of Post-classical Philosophy in Islam** Frank Griffel,2021 In recent decades scholars have come to recognize the importance of classical Islamic philosophy both in its own right and in its preservation of and engagement with Western philosophical ideas At the same time the period immediately following the so called classical period has often been seen as a sort of dark age in which Islamic thought entered a long period of decline In this monumental new work Frank Griffel seeks to overturn this conventional wisdom arguing that what he calls the post classical period has been unjustly maligned and neglected by previous generations of scholars The Formation of Post Classical Philosophy in Islam is a comprehensive study of the far reaching changes that led to a re shaping of the philosophical discourse in Islam during the twelfth century Earlier Western scholars thought that Islam s engagement with the tradition of Greek philosophy ended during that century More recent analyses suggest that Islamic thinkers instead integrated Greek thought into the genre of rationalist Muslim theology kalam Griffel argues that even this view misses a key point In addition to the integration of Greek ideas into kalam Muslim theologians picked up the discourse of philosophy in Islam falsafa and began to produce books on philosophy Books in these two genres kalam and philosophy argue for opposing teachings on the nature of God the world s creation and on the afterlife even when written by the same authors Griffel explains the emergence of a new genre of philosophical books called hikma works that stand opposed to Islamic theology and at the same wish to complement it Offering a detailed history of philosophy in Iraq Iran and Central Asia during the twelfth century together with an analysis of the way philosophy was practiced during this time Griffel shows how works of falsafa written by major Muslim theologians

such as al Ghazali developed step by step into critical assessments of philosophy that try to improve philosophical teachings and eventually become fully fledged philosophical summas in the work of Fakhr al Din al Razi Griffel s examination of the different methods of kalam and hikma demonstrate both the coherence and ambiguity of a Muslim post classical philosopher s oeuvre A work of extraordinary breadth and depth The Formation of Post Classical Philosophy in Islam will be essential reading for anyone interested in the history of Philosophy or the history of Islam History Of Islamic Philosophy Henry Corbin,2014-06-23 First published in 1993 Routledge is an imprint of Taylor Francis an informa company Introduction to the Study of Religion Leroyce Miles,2018-08-07 One thing is clear that fighting with other human beings in the name of religion is subhuman As a religious man we are fellow travellers in the direction of the realm of spirit Here the nomenclature of Hindus Muslims Christians etc ceases to be meaningful Of course we have to go very far and we have not made any beginning yet However at present the advaitic principle of difference less Brahman can serve the purpose of harmonizing all religions Here we have adopted this principle Secondly the key concepts of different religions have been shown to mingle into one another The book attempts to interrogate the categories used in western discourse in the study of religion In doing so the book outlines a broad overview of the discussions on issues relating to the methods and theories in the study of religion The book provides an insight into some of the key issues that need clarity in dealing with religions This scholarly presentation is a must read for students of religion culture and philosophy and for those involved with the struggles of the subaltern community *A History of Islamic Philosophy* Majid Fakhry,2004 The first comprehensive survey of Islamic philosophy from the seventh century to the present this classic discusses Islamic thought and its effect on the cultural aspects of Muslim life Fakhry shows how Islamic philosophy has followed from the earliest times a distinctive line of development which gives it the unity and continuity that are the marks of the great intellectual movements of history
