since 1978 Li Ma,2023-09-30 This book examines the rising global prominence of China s art market throughout the

twentieth and twenty first centuries To understand the far reaching impact of Chinese art on global consumption this book

traces the shift from regional markets to global markets It asks how the Chinese art market re emerged from its politicized

past innovated within the private economy boom remained resilient despite the global financial crisis and flourished on the

global stage despite the COVID 19 pandemic Ultimately it argues that cultural entrepreneurship enabled Chinese art

[Painting](#) Yi Gu,2021-02-01 How did modern Chinese painters see landscape Did they depict nature in the same way as

premodern Chinese painters What does the artistic perception of modern Chinese painters reveal about the relationship

between artists and the nation state Could an understanding of modern Chinese landscape painting tell us something

previously unknown about art political change and the epistemological and sensory regime of twentieth century China Yi Gu

tackles these questions by focusing on the rise of open air painting in modern China Chinese artists almost never painted

outdoors until the late 1910s when the New Culture Movement prompted them to embrace direct observation linear

perspective and a conception of vision based on Cartesian optics The new landscape practice brought with it unprecedented

emphasis on perception and redefined artistic expertise Central to the pursuit of open air painting from the late 1910s right

through to the early 1960s was a reinvigorated and ever growing urgency to see suitably as a Chinese and to see the Chinese

homeland correctly Examining this long overlooked ocular turn Gu not only provides an innovative perspective from which to

reflect on complicated interactions of the global and local in China but also calls for rethinking the nature of visual modernity
