The Metropolitan Life Insurance Company Metropolitan Life Insurance Company, 1914 *Investigation of Concentration of Economic Power* United States. Temporary National Economic Committee, 1939 SEC Docket United States. Securities and Exchange Commission, 2008 Experiencing Cities Mark Hutter, 2015-12-22 This extraordinary text for undergraduate urban students is a reflection of Mark Hutter's academic interests in urban sociology and his life-long passion for experiencing city life. His deep academic roots in the Chicago School of Sociology help inform and appreciate the variety of urban structures and processes and their effect on the everyday lives of people living in cities. This text however extends the Chicago School perspective by combining its traditions with a social psychological perspective derived from symbolic interaction and also with a macro level examination of social organization, social change, stratification and power in the urban context informed by political economy. This entirely new 3rd Edition has a global outlook on city life and a visual presentation unmatched among books in this genre.

Untimely Ruins Nick Yablon, 2010-06-15 American ruins have become increasingly prominent whether in discussions of urban blight and home foreclosures in commemorations of 9/11 or in postapocalyptic movies. In this highly original book Nick Yablon argues that the association between American cities and ruins dates back to a much earlier period in the nation's history. Recovering numerous scenes of urban desolation from failed banks, abandoned towns and dilapidated tenements to the crumbling skyscrapers and bridges envisioned in science fiction and cartoons, *Untimely Ruins* challenges the myth that ruins were absent or insignificant objects in nineteenth century America. The first book to document an American cult of the ruin, *Untimely Ruins* traces its deviations as well as derivations from European conventions. Unlike classical and Gothic ruins which decayed gracefully over centuries and inspired philosophical meditations about the fate of civilizations, America's ruins were often untimely, appearing unpredictably and disappearing before they could accrue an aura of age. As modern ruins of steel and iron, they stimulated critical reflections about contemporary cities and the unfamiliar kinds of experience they enabled. Unearthing evocative sources everywhere from the archives of amateur photographers to the contents of time capsules, *Untimely Ruins* exposes crucial debates about the economic, technological and cultural transformations known as urban modernity. The result is a fascinating cultural history that uncovers fresh perspectives on the American city.
