The Metternich Controversy:

The Metternich Controversy Enno E. Kraehe, 1971 *Palmerston and Metternich's Austria, 1830–1841* Jiří Vyčichlo, 2025-03-03 This book aims to analyze the international policies of Viscount Palmerston and Prince Metternich during the years 1830–1841. The focus of this work is on the pivotal role of British diplomacy in Europe during a period marked by the outbreak of the July Revolution, the dissolution of the United Kingdom of the Netherlands, the November Uprising, significant events in the German Confederation and the Papal States, as well as the civil wars in Portugal and Spain and the two Egyptian–Ottoman wars. The clash between Palmerston and Metternich stands out. Both men were at the forefront of European foreign relations and were symbols of two different political currents. This work aims to challenge the traditional view of Palmerston as a progressive statesman who defended the freedom of European liberalism and Metternich as a reactionary who opposed social modernization. The text highlights the motives behind British foreign policy, which were centred on promoting national interests, often at the expense of cooperation among the Great Powers, in contrast to the Austrian Chancellor's efforts to foster the best possible relations within the Concert of Europe. **The Origins of**

Revisionist and Status-Quo States J. Davidson, 2016-04-30 Explaining why some states seek the status quo and others seek revision in international relations, Davidson argues that governments pursuing revisionist policies are responding to powerful domestic groups such as nationalists and those in the military that believe they can defeat their rivals. He draws on examples of France, Italy, and Great Britain to enhance understanding of a fundamental source of instability in international affairs.

The War for the Public Mind Robert J. Goldstein, 2000-03-30 From 1815 to 1914, European governments and their political oppositions were engaged in a constant war for the minds of the general population, especially the working classes. The German socialist newspaper *Hamburger Echo* declared on September 27, 1910: "In waging our war, we do not throw bombs. Instead, we throw our newspapers amongst the masses of the working people. Printing ink is our explosive." The most comprehensive study ever published about European censorship practices during the 1815–1914 period, this book discusses the censorship of books, newspapers, caricatures, theater, and film through an analytical introductory survey and six chapters by leading specialists who summarize 19th-century censorship practices in the six major countries of continental Europe: Germany, Italy, France, Austria, Russia, and Spain. As a result of the massive transformation of European life in the post-Napoleonic period and the simultaneously rapid growth in industrialization, urbanization, literacy, transportation, and communication, the average European emerged quite suddenly as a potential player who could no longer be ignored by the ruling elite. **Events That Formed the Modern World** Frank W. Thackeray, John E. Findling, 2012-05-31 This
