The Middle Sea John Julius Norwich, 2007-12-04 This lively and dramatic book brings roaring to life the grand sweep of 5 000 years of history in the cradle of civilization A wonderfully illustrated account of the civilizations that rose and fell on the lands bordering the Mediterranean *The Middle Sea* represents the culmination of a great historian's unparalleled art and scholarship John Julius Norwich provides brilliant portraits of the Phoenicians the Egyptians the Greeks the Romans the Byzantines the Arabs the French the Venetians the Popes and the pirates of the Gulf Above all he deftly traces the intermingling of ancient conflicts and modern sensibilities that shapes life today on the shores of the Middle Sea

The Middle Sea John Julius Norwich, 2006 The Mediterranean has nurtured three of the most dazzling civilizations of antiquity Egypt Greece and Rome It has witnessed the birth or growth of three of our greatest religions Judaism Christianity and Islam It links three of the world's six continents Europe Asia and Africa To the peoples living around its periphery it has served at various times as a cradle and a grave a bond and a barrier a blessing and a battlefield It has inspired writers from Homer and Virgil to Norman Douglas and Patrick Leigh Fermor Geographically it is unlike any other sea in the world in historical importance also it stands alone

The Making of the Middle Sea Cyprian Broodbank, 2024-10-17 The Mediterranean has been for millennia one of the global cockpits of human endeavour World class interpretations exist of its Classical and subsequent history but there has been remarkably little holistic exploration of how its societies culture and economies first came into being despite the fact that almost all the fundamental developments originated well before 500 BC Mediterranean archaeology is one of the world's richest sources for the reconstruction of ancient societies yet this book is the first to draw in equal measure on ideas and information from the

European western Asian and African flanks as well as the islands at the Mediterraneans heart to achieve a truly innovative focus on the varied trajectories and interactions that created this maritime world The Making of the Middle Sea is extensively illustrated and ranges across disciplines subject matter and chronology from early humans and the origins of farming and metallurgy to the rise of civilizations Egyptian Levantine Minoan Mycenaean Phoenician Etruscan early Greek and ultimately pan Mediterranean
