[Energy Research Abstracts](#) ,1988 **Advances in Nuclear Science and Technology** Jeffery Lewins, Martin Becker, 2012-12-06 The Editors have pleasure in presenting a further volume in the series to our international audience Perhaps the most significant event of the passing year has been the publication by the IAEA of its study of the problem of

continuing radiation protection in the lands surrounding Chernobyl The major international project undertaken in 1990 and reported in 1991 is worth reading not only for its assessment of how radiation protection intervention should be applied de facto in accident conditions but equally for its account of the modern view of the philosophy of radiation protection Some would however wish to argue that the acknowledgement by Iraq of its three pronged development of nuclear weapons in conditions of secrecy and antagonism was equally significant and indeed as much a determinant of the future of peaceful nuclear power as the Chernobyl accident But it must be clear that the developments of weapons and electricity production are not inescapably bound together the Iraqi weapons program was not linked to any peaceful power development **SIAM Journal on Scientific Computing** ,1996 **SIAM Journal on Scientific and Statistical Computing** Society for Industrial and Applied Mathematics,1991 **Computational Science at the San Diego Supercomputer Center** ,1991 **Government Reports Announcements & Index** ,1995 **American Book Publishing Record** ,1997-09 **SIAM Journal on Computing** Society for Industrial and Applied Mathematics,1996 *Chaos, Solitons and Fractals* ,2002 **Tabellenboek wetenschappelijk onderwijs en onderzoek** Rijksuniversiteit Groningen,1993 **Digest of Papers - Compcon** ,1988 *L'Enseignement mathématique* ,1989 Vols for 1965 include a separately paged section Bulletin bibliographique **An Invitation to Computer Science** G.
