The Maximus Poems:

A Guide to The Maximus Poems of Charles Olson George F. Butterick, 2023-11-15 A Guide to the Maximus Poems of Charles Olson offers an essential companion to Olson's monumental and intricate Maximus Poems. This scholarly guide navigates the complexities of Olson's allusive and expansive verse which spans themes from local Gloucester history to universal mythologies. With nearly 4,000 annotations, the guide meticulously decodes references to historical figures, literary works, geographical landmarks, and philosophical concepts. It moves line by line, offering insight into Olson's sources and intellectual framework, including his borrowings from Algonquin legends, Arabic angelology, and Whitehead's cosmology. Rich with unpublished material from Olson's papers, as well as letters, interviews, and classroom notes, the guide aims to equip readers with the tools to actively engage with Olson's text, uncovering its layered meanings through his principle of *istoria* to find out for oneself. Structured chronologically rather than alphabetically, the guide mirrors the progression of Olson's three-volume epic, weaving historical scholarship with interpretive clarity. Each annotation situates Olson's references in context, revealing the intricate interplay between history, myth, and the poet's life in Gloucester. The guide further illuminates Olson's creative process, tracing the evolution of his ideas through drafts, personal correspondences, and published works. Designed as both a reference and an entry point into Olson's ambitious poetic project, it not only deepens appreciation for *The Maximus Poems* but also serves as a model for literary scholarship, inviting readers to engage with Olson's world on their own intellectual journey. This title is part of UC Press's *Voices Revived* program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Drawing on a backlist dating to 1893, *Voices Revived* makes high-quality, peer-reviewed scholarship accessible once again using print-on-demand technology. This title was originally published in 1980. [The Maximus Poems](#) Charles Olson, 1983 *The Maximus Poems* is one of the high achievements of twentieth-century American letters and an essential poem in the postmodern canon. It stands out in Hayden Carruth's words as a huge and truly angelic effort matching the dimensions of its hero's name and returning poetry to its Homeric and Hesiodic scope. This complete edition of *The Maximus Poems* brings together the three volumes of Charles Olson's long poem, originally published in 1960, 1968, and 1975, and long out of print in an authoritative version, edited according to the highest standards of textual criticism. Errors in the previous editions have been corrected; twenty-nine new poems added; and the sequence of the final poems modified in the light of the editor's research among the poet's papers.
