The Meaning And Method Of Mysticism:

The Meaning and Method of Mysticism Annie Wood Besant, 2005-12 This scarce antiquarian book is a facsimile reprint of the original Due to its age it may contain imperfections such as marks notations marginalia and flawed pages Because we believe this work is culturally important we have made it available as part of our commitment for protecting preserving and promoting the world s literature in affordable high quality modern editions that are true to the original work Mysticism and Its Nature; The Main Directions of Ancient Church Mysticism Pyotr M. Minin, *The Role of Nature Mysticism in Building Ecological Theology and Ethics* Rachel M. Knight-Messenger, 2025-12-11 This book argues that nature mysticism is an excellent source for building an ecological ethic that takes seriously the human responsibility in creation Imagery Techniques in Modern Jewish Mysticism Daniel Reiser, 2018-07-09 This book analyzes and describes the development and aspects of imagery techniques a primary mode of mystical experience in twentieth century Jewish mysticism These techniques in contrast to linguistic techniques in medieval Kabbalah and in contrast to early Hasidism have all the characteristics of a full screenplay a long and complicated plot woven together from many scenes a kind of a feature film Research on this development and nature of the imagery experience is carried out through comparison to similar developments in philosophy and psychology and is fruitfully contextualized within broader trends of western and eastern mysticism Mysticism Examined Richard H. Jones, 1993-01-01 Mysticism presents a challenge to anyone who is interested in fundamental questions about the nature of reality knowledge and how we should live In this book the author examines questions posed by mysticism He clarifies the nature of the claims advanced by Western and Asian mystics and explores the beliefs and values of classical mystical ways of life for their interconnections and reasonableness Jones discusses whether all mystical experiences and all mystical claims of knowledge are similar and examines the relation of concepts and experiences in mystics claims Also presented are standards for evaluating competing mystical claims and mystics problems with language Whether mystics arguments are rational is investigated along with the relation of moral and non moral values and the role of beliefs and values in enlightened mystics ways of life Mysticism s relation to the enterprises of science theology psychology and ethics is also examined **The Meaning and Value of Mysticism** Emily Herman, 1925 **The Unity of Mystical Traditions** Randall Studstill, 2018-08-14 This book argues that mystical doctrines and practices initiate parallel transformative processes in the consciousness of mystics This thesis is supported through a comparative analysis of Tibetan Buddhist Dzogchen rdzogs chen and the medieval German mysticism of Eckhart Suso and Tauler These traditions are interpreted using a system cybernetic model of consciousness This model provides a theoretical framework for assessing the cognitive effects of mystical doctrines and practices and showing how different doctrines and practices may nevertheless initiate common transformative processes This systems approach contributes to current philosophical discourse on mysticism by 1 making possible a precise analysis of the cognitive effects of mystical doctrines and practices and 2 reconciling mystical

heterogeneity with the essential unity of mystical traditions Mystical Experiences and Scientific Method Christer Norrman,1987 *A Critique of Some Philosophical Aspects of the Mysticism of Jacob Boehme* George Mervin Alleman,1932

Lectures on Mysticism and Talks on Kindred Subjects Carl Henrik Andreas Bjerregaard,1896 *Critical and Miscellaneous Essays* Thomas Carlyle,1872 **The Sufi Message of Hazrat Inayat Khan: The mysticism of sound. Azoth, Or The Star in the East ...* Arthur Edward Waite,1893 Gol o Nowruz, Discovering Mystical Motifs and Thematic Literary Connections Meghdad Shamsolvaezin,2021-09-07 Master s Thesis from the year 2020 in the subject Literature Middle East Universit Sorbonne Nouvelle Paris III language English abstract This research studies the tale Gol o Nowruz in the field of the literary genre of mirror for princes This study reveals the differences between various texts of advice in the field of spiritual purification for the prince We try to define the new concept of the spiritual mirror for princes by examining different stages of the spiritual journey in the author s work The author s work is more than a list of advice for kings He represents the practical solutions for spiritual dimensions and their origins His work is about the methods of entering the heavenly gates and he considers the connection with the secrets of existence as the duty of the heart and love He considers the wisdom as the main guide to the right way The poet invites man to look at an order greater than ours of which we are a part By looking at spring and the earth man learns that nature performs a cycle that shows the power of light and the sun This is the perception of the value of harmony that creates beauty The poet invites to the understanding of nature s law in spring and he leads to the true peace that is possible with love to find a way to achieve true happiness by using the reason However he does not suggest using reason to learn and understand the love for worldly purposes Rather he invites using the heart to learn reason s aspects for celestial purposes The main goal is love and not reason but wisdom shows the way to reach true love The connection between reason and love leads to true happiness because the true connection between them leads to the understanding of truth The knowledge brings happiness because it is made of light and ignorance is like a demon that leads to the darkness **Understanding Jewish Mysticism: The philosophic-mystical tradition and the Hasidic tradition** David R. Blumenthal,1978 Unfolding Consciousness Edi Bilimoria,2024-03-11 Exploring the Living Universe and Intelligent Powers in Nature and Humans author Edi Bilimoria heralds the new science of consciousness and offers the readers a roadmap and necessary tools to achieve future growth Presented in three volumes plus volume IV contains references resources further reading they reveal the unity of the Eastern and Western branches of our perineal wisdom Bilimoria shows how science seeks truth using a synthesis of both traditions Evidence from a wide range of sources scientific medical philosophical religious and cultural is put forward to argue the case that humans are spiritual beings primarily and not merely complicated biological machines Bilimoria teaches that consciousness is not the product of matter but the primary element from which all else emanates This process and its underlying mechanisms are described in detail with much clarity
