

# Meaning Of Love

In my thoughts and in my imagination,  
the true meaning of love is beyond my comprehension,  
The mysterious aura of moonlit starry nights,  
makes my heart yearn for the essence of love.

Love is intimacy of amorous hearts,  
Love is the fusion of minds and souls,  
Love is sharing of faith and trust,  
Love is the will to overcome hate and angst,  
Love is unselfish devotion,  
Love is the prime mode of creation.  
Love is the life support for souls,  
Love is immortal even in extinction.

Still I don't know what love is,  
Maybe love is love,  
Or just an imagination,  
In my lonely heart.

## **The Meaning Of Love:**

**The Meanings of Love** Robert E. Wagoner, 1997-05-21 This introductory text offers a clear concise look at the philosophy of love The author s presentation assumes no previous knowledge of philosophy providing the humanities student with an insightful introduction to some of the most prominent writers and philosophers both ancient and modern From the dialogues of Plato to the writings of feminist philosopher Luce Irigaray Wagoner presents six major ideas of love erotic love Christian love romantic love moral love love as power and mutual love This study asserts that even though we have only one word for love six fundamentally different meanings can be distinguished erotic love Christian love romantic love moral love love as power and mutual love Wagoner identifies each of these ideas of love in terms of the special meaning it brings to experience No one meaning is comprehensive Each is shown to have a logic and legitimacy of its own Why each view seems real and compelling is the focus of separate discussions as well as the price that may be exacted by each idea The extent to which these ideas throw light on actual experience is striking but the book is not an empirical or psychological inquiry How one self finds itself in another is first defined and then explored further to see how this shapes the rational and sexual aspects of life

**The Meaning of Love** Vladimir S. Solov'ëv, Jane Marshall, 1945      **The Meaning of Love** Vladimir Sergeyevich Solovyov, 1980      *The Meaning of Love* Vladimir Solovyov, 1985-10 Written in 1894 CW 4 Materialism can never provide a satisfactory explanation of the world For every attempt at an explanation must begin with one s forming thoughts for oneself about the phenomena of the world Materialism therefore takes its start with the thought of matter or of material processes Thus it already has two different realms of facts before it the material world and thoughts about it It seeks to understand the latter by grasping them as a purely material process It believes that thinking takes place in the brain in about the same way as digestion does in the animal organs Just as it attributes to matter mechanical and organic effects so it also ascribes to it the capability under specific conditions to think It forgets that it has now only transferred the problem to another place It attributes the capability of thinking not to itself but to matter An in doing so it is back again at its starting point The materialistic view is not able to solve the problem but only to shift it pp 18 19 Of all of his works *The Philosophy of Spiritual Activity* is the one that Steiner himself believed would have the longest life and the greatest spiritual and cultural consequences It was written as a phenomenological account of the results of observing the human soul according to the methods of natural science This seminal work asserts that free spiritual activity understood as the human ability to think and act independently of physical nature is the suitable path for human beings today to gain true knowledge of themselves and of the universe This is not merely a philosophical volume but rather a warm heart oriented guide to the practice and experience of living thinking Readers will not find abstract philosophy here but a step by step account of how a person may come to experience living intuitive thinking the conscious experience of a purely spiritual content During the past hundred years since it was written many have tried to discover this new thinking that could help us understand the various spiritual

ecological social political and philosophical issues facing us But only Rudolf Steiner laid out a path that leads from ordinary thinking to the level of pure spiritual activity intuitive thinking in which we become co creators and co redeemers of the world This volume is arguably the most essential of Steiner s works The thoughts in this book establish the foundation for all of Anthroposophy The Philosophy of Spiritual Activity is a translation from German of Die Philosophie der Freiheit GA 4

**The Meaning of Love** Alexander Evans Jr,2012-07 This book is compiled of short verses that expresses the Majesty of love It s power It s enormous influence on the human race since the beginning of time These verses are short yet powerful and very meaningful each one carries a very special method that can be applied the love that the world needs *The Meaning of Love* Robert Maynard Hutchins,1953 **The Human Meaning** Valentin Matcas,2017-04-20 Love and the Divine are the best meanings there can be just because love stands at the top of your feelings and you treasure the most while the Divine is everything that exists You cannot find anything beyond love and the Divine capable enough to set your meaning in life and in this world simply because there is nothing else beyond them However there is significantly more to learn and understand about the human meaning just because as it is presented in this world today through science literature philosophy and through the rest of ideologies it is not enough You fail to understand the human meaning and this causes you to fail your own meaning in life and in this world at least your natural meaning as you receive it from Life and from the Divine Because the concept of meaning is presented to you empirically today you cannot understand it accurately in this manner but only through doctrine and beliefs you can never engage your reasoning in this manner in order to grasp accurately your own natural meaning your natural meaning is easily hijacked and everything is done on purpose to harm and exploit you In this manner you end up fulfilling consensually implemented meanings throughout life on behalf of the rich and the powerful of this world since they are the ones controlling ideologies and therefore consensual meanings in this world Not much that you do now counts for Life and for the Divine despite of what ideologies tell and promise and when you look back now you may see the kind of world that you create And do not blame the rich and the powerful of this world since you are the one doing everything for them Many times it is for your children that you struggle throughout life to make them happy to make them worthy and to make everything count because this is exactly your meaning in your family Yet can t it be the same in your community and in society Does it ever make a difference to have or not to have a specifically defined meaning in life and in this world Yes it certainly makes a difference because all meanings count even the slightest ones since they are connected And it is always a matter of identifying your meanings instead of fulfilling them unknowingly otherwise you end up working your entire life in vain While through your consensually induced meanings you end up working against the meanings of others deliberately or not living your life against your loved ones While they can certainly feel and this ruins entire relationships This is your consensual meaning in your family in society in life and in this world And so you end up living your life against yourself against your own natural meaning Throughout this book we follow identify define understand and model

the human meaning genuine and consensual from all perspectives and in all contexts You learn about your meaning in life in this world in society within your family and genetic line within you own cognitive system within higher worlds and within everything that exists

**Understanding Love** Timo Purjo,2025-10-02 This book is a true voyage of exploration across the sea of love approaching the theme through a logotherapeutic and philosophical perspective The author PhD Timo Purjo examines love as the highest value a fundamental spiritual capacity and the deepest meaning of human existence It leads the reader from foundational philosophical principles to concrete life situations in which love is expressed as an attitude a responsibility a decision and a calling It draws upon Viktor Frankl s anthropological understanding of the human person placing emphasis on the role of the will to meaning self transcendence and responsibility in realizing authentic love The author reflects on love not just as a feeling but as a value that gives direction and purpose to human life Through philosophical analysis drawing on the insights of M Scheler K Jaspers E Fromm and other important thinkers Purjo connects the logotherapeutic understanding of meaning with fundamental questions about the nature of love the challenges it faces and its potential for growth Building upon Frankl s concept of WILL TO MEANING as the cornerstone of logotherapy Purjo expands the framework by guiding the reader toward a conscious and empowered WILL TO LOVE The practical dimension of love is also explored as love in interpersonal relationships in professional settings love directed toward imperfection love in suffering and loss and love for non human beings and nature The book includes personal stories that testify to love as a genuine and vital force in life What makes this book truly unique is that the author does not write from the position of someone who knows what love is but rather as someone who searches learns and shares with the reader what he has discovered along the way More than a theoretical exploration this book is an invitation to pause reflect and re examine the ways in which love shapes our decisions our relationships and our sense of purpose It encourages the reader to engage in the courageous act of loving not as a fleeting emotion but as an enduring orientation toward the good the true and the meaningful Through this lens love becomes not only a personal experience but an existential commitment a spiritual path and a shared human journey Understanding Love is a deeply personal yet universal book philosophical yet warm academically grounded yet accessible to anyone seeking a deeper understanding of love in their own life
