The Men In Blue Conversations With Umpires:

The Men in Blue Larry R. Gerlach,1994-01-01 The philosopher Jacques Barzun thought that whoever wants to know the heart and mind of America had better learn baseball And whoever wants to know baseball had better learn about umpires As Larry Gerlach points out in *The Men in Blue* these arbiters transform competitive chaos into organized sport They make it possible to play ball but nobody loves them Considering the abuse meted out by fans and players why would any sane person want to be an umpire Many reasons emerge in conversations with a dozen former major league arbiters While nobody loves them they love the game Gerlach has elicited entertaining stories from these figures under fire about their lonely travels their dealings with umpire baiters battles for unionization breaking through the color line and much more From Beans Reardon who came up to the National League in 1926 to Ed Sudol who retired in 1977 here is a witty and telling portrait of baseball from the boisterous Golden Age to the Jet Age of Instant Replay *Dean of Umpires* Bob Luke,2005-07-15 Hall of Fame umpire Bill McGowan controlled the field of play as much with his personality as with the rulebook his respected 30 year career including 2 532 consecutive games was among the longest in baseball history McGowan was the home plate umpire in the first ever American League pennant playoff game Cleveland versus Boston in 1948 Famous for his sense of humor great dramatics and wild gestures he was known to turn a strike into a ball if he thought a player deserved a break or to eject half a team if they annoyed him He promoted such players as Goose Goslin Moe Berg Stanley Bucky Harris and Jimmy Dykes wrote articles and newspaper columns and founded a school for umpires in College Park Maryland which continues today as the Harry Wendelstedt Umpire School This richly illustrated biography gives an intimate view of this talented umpire from his birth in 1896 and long marriage to his death from diabetes in 1954 With research including interviews with former players as well as family members the work provides a wealth of anecdotes and insights into his profession The textbook McGowan wrote for his students is included as an appendix *Diamond Classics* Mike Shannon,2024-10-11 Each work chosen with exquisite care by an expert is analyzed and summarized Its greatness as baseball literature its place in the genre its peculiarities weaknesses strengths how the critics went for it all are discussed in such a way with quotations that reading or browsing Shannon s book is equivalent to absorbing a rich history of the sport
