**The Metaphysics of Beauty** Nick Zangwill, 2018-05-31 In chapters ranging from The Beautiful the Dainty and the Dumpy to Skin deep or In the Eye of the Beholder Nick Zangwill investigates the nature of beauty as we conceive it and as it is in itself The notion of beauty is currently attracting increased interest particularly in philosophical aesthetics and in discussions of our experiences and judgments about art In The Metaphysics of Beauty Zangwill argues that it is essential to beauty that it depends on the ordinary features of things He uses this principle to defend the notion of the aesthetic to call for a version of aesthetic formalism and to reconsider the reality of beauty The Metaphysics of Beauty brings beauty to the center of intellectual consciousness in a manner informed by contemporary metaphysics and engages with beauty as an enduring object of human thought and experience *Leibniz's Aesthetics* Carlos Nicolas Portales, 2019 The Philosophy of the Beautiful: Outlines of the history of aesthetics William Angus Knight, 1891 The Philosophy of the Beautiful William Angus Knight, 1891 *The Philosophy of the Beautiful* William Angus Knight, 1895 Beauty and Being Piotr Jaroszyński, 2011 This book represents an attempt to distinguish and define what beauty is in metaphysical terms to arrive at a better understanding of beauty as a transcendental property of being and to establish beauty's place in philosophy alongside truth and the good through an exploration of whether there can truly be a philosophy of beauty or whether beauty is merely a type of aesthetic The first part of this work outlines the history of philosophical thought on the subject through an introduction to three great theories of beauty harmony form and relationism and a discussion of the evolution of the fine arts The second part introduces first the theory of aesthetics then the relationship between nature being and beauty and finally the controversy over whether beauty is natural or a product of human knowledge and experience The third part moves towards a philosophy of beauty in a first sense something that is real but immaterial something that can be understood but not seen This idea is constructed through an examination of beauty's relation to beings and existence and finally through a juxtaposition of beauty with ugliness **The Metaphysics of Good and Evil According to Suárez** Francisco Suárez, Jorge J. Kovach, 2012-07 There has long been a need for a work

on the philosophy of beauty treating fundamental problems against the background of the history of aesthetics ancient and medieval as well as modern and contemporary This book answers that need with the comprehensive presentations of an objectivist philosophy of beauty to balance the currently popular aesthetic subjectivism It includes a synopsis of views and theories expressed on the various questions about beauty by philosophers down through the ages Kovach s acquaintance with relevant literature from the ancient Greeks to twentieth century authors is staggering He draws on the observations of thinkers from ancient times Plato Aristotle Philo of Alexandria Cicero Plotinus Augustine Dionysius the Areopagite and others from medieval times Alexander of Hales John of la Rochelle Thomas of York Bonaventure Albert the Great Thomas Aquinas Dionysius the Carthusian and others from modern times Descartes J Addison Kant Hegel Schopenhauer Nietzsche Tolstoi Santayana Croce Maritain Sartre H Read Thomas Munro and others With delicate precision Kovach systematically discusses the philosophy of beauty and the problems it raises Whether or not one agrees with Kovach s objectivist position no one in the field can afford to be without this book
