## **The Middle East Explained:**

*A Pocket Guide to the Middle East* United States. Armed Forces Information and Education Division, 1962 **Caravan - The Story of Middle East** Carleton S. Coon, 2011-03-23 No man could hope to draw together the various fields from which the materials of this book are derived if he were a scholar in any one of them. No one could feel less scholarly than I do. This becomes particularly evident when the subject of Arabic transliteration arises as it always does in forewords to books on the Middle East. I have before me the handiwork of Hitti Gibb and Calverley three men whose erudition and integrity are of the highest order and yet I cannot find complete agreement among them.

**1 Middle East 101** Youssef Aboul-Enein, Joseph T Stanik, 2019-05-15 This work answers 101 essential questions on the Middle East Islam, the Arab Spring, al Qa'ida, and ISIS. It is for those wanting to begin an intellectual immersion into the complexities of the region from pre-biblical times to the post-Arab Spring. The authors have carefully focused on what the deploying soldier, sailor, Marine, coast guardsman, or airman needs to know before arriving in the Middle East including the nuances inherent in a region that is the crossroads of three continents Europe, Asia, and Africa and how previous global powers interacted and left their mark. While developed and written for Americans about to deploy to combat zones and areas of operation, it is also of use to a wider audience of Americans serious about the challenges of the region.

**The Middle East** Ellen Lust, 2019-08-06 Written by a group of well-known experts and researchers who have diligently worked and updated the book since its first edition to include the most important features of State Polity and Governance in Middle East and North Africa. **Men of Capital** Sherene Seikaly, 2015-11-18 An eye-opening book on the history of an elite Palestinian Arab group, an important contribution and a highly recommended read. Middle East Journal Men of Capital examines British-ruled Palestine in the 1930s and 1940s through a focus on economy. In a departure from the expected histories of Palestine, this book illuminates dynamic class constructions that aimed to shape a pan-Arab utopia in terms of free trade, profit accumulation, and private property. And in so doing, it positions Palestine and Palestinians in the larger world of Arab thought and social life, moving attention away from the limiting debates of Zionist-Palestinian conflict. Reading Palestinian business

periodicals records and correspondence Sherene Seikaly reveals how capital accumulation was central to the conception of the ideal social man Here we meet a diverse set of characters the man of capital the frugal wife the law abiding Bedouin the unemployed youth and the abundant farmer in new spaces like the black market cafes and cinemas and the idyllic Arab home Seikaly also traces how British colonial institutions and policies regulated wartime austerity regimes mapping the shortages of basic goods such as the vegetable crisis of 1940 to the broader material disparities among Palestinians and European Jews Ultimately she shows that the economic is as central to social management as the political and that an exclusive focus on national claims and conflicts hides the more complex changes of social life in Palestine
