## **The Medieval Opus Imitation Rewriting And Transmibion In The French Tradition:**

*The Medieval Opus* University of Wisconsin. Institute for Research in Humanities, 1996      **The Medieval "opus"**  
Douglas Kelly, 1996      *The Medieval Opus: Imitation, Rewriting and Transmission in the French Tradition*, 1996 The Medieval Opus is a broad but detailed study of the art of imitation as rewriting that was practiced in medieval French texts and in texts in other languages influenced by French models. It contains the proceedings of a symposium on this topic. The volume will be of interest to scholars and students of medieval French as well as other medieval literatures influenced by French models. The range of texts is broad from epic to romance and from lyric to late medieval lyrico narrative genres. The authors teach in a number of countries in Europe and North America and they represent a variety of approaches ages and critical perspectives on medieval rewriting. Two major concepts inform the papers the bridge work and the specimen text. The bridge work Tony Hunt's term refers here to two works that have identifiable links to others and that by those links reveals something of the art of writing for both works. Specimen texts are works representative of the art of imitation illustrated by the bridge works. The proceedings move beyond the analysis of a general art of composition to investigate original rewriting in specific works that serve as specimen texts. The goal of the proceedings has been to appreciate originality within the framework of the medieval art of literary writing.      *Fictions of Identity in Medieval France* Donald Maddox, 2000-11-23 In this study of vernacular French narrative from the twelfth century through the later Middle Ages first published in 2000 Donald Maddox considers the construction of identity in a wide range of fictions. He focuses on crucial encounters widespread in medieval literature in which characters are informed about fundamental aspects of their own circumstances and selfhood. These always arresting and highly significant moments of specular encounter are examined in numerous Old and Middle French romances, hagiographic texts, epics and brief narratives. Maddox discloses the key role of identity in an original reading of the *Lais of Marie de France* as a unified collection as well as in Arthurian literature, fictions of the courtly tryst, genealogies and medieval family romance. The study offers many new perspectives on the poetic and cultural implications of identity as an imaginary construct during the long formative period of French literature.      *Shaping Courtliness in Medieval France* Daniel E. O'Sullivan, Laurie Shepard, 2013 The question of what medieval courtliness was both as a literary influence and as a historical reality is debated in this volume. The concept of courtliness forms the theme of this collection of essays. Focused on works written in the Francophone world between the twelfth and fifteenth centuries they examine courtliness as both an historical privilege and a literary ideal and as a concept that operated on and was informed by complex social and economic realities. Several essays reveal how courtliness is subject to satire or is the subject of exhortation in works intended for noblemen and women not to mention ambitious bourgeois. Others more strictly literary in their focus explore the witty, thoughtful and innovative responses of writers engaged in the conscious process of elevating the new vernacular culture through the articulation of its complexities and contradictions. The volume as a whole uniting

philosophical theoretical philological and cultural approaches demonstrates that medieval courtliness is an ideal that fascinates us to this day It is thus a fitting tribute to the scholarship of Matilda Tomaryn Bruckner in its exploration of the profound and wide ranging ideas that define her contribution to the field DANIEL E O SULLIVAN is Associate Professor of French at the University of Mississippi LAURIE SHEPHERD is Associate Professor of Italian at Boston College in Chestnut Hill Massachusetts Contributors Peter Haidu Donald Maddox Michel Andr Bossy Kristin Burr Joan Tasker Grimbert David Hult Virginie Greene Logan Whalen Evelyn Birge Vitz Elizabeth W Poe Daniel E O Sullivan William Schenck Nadia Margolis Laine Doggett E Jane Burns Nancy FreemanRegalado Laurie Shephard Sarah White **Convocational and Compilational Play in Medieval London Literary Culture** Arthur William Bahr,2006 **Walter Map and the Matter of Britain** Joshua Byron Smith,2017-07-25 Why would the thirteenth century French prose Lancelot Grail Cycle have been attributed to Walter Map a twelfth century writer from the Anglo Welsh borderlands Joshua Byron Smith sets out to answer this and other questions and offers a new explanation for how narratives about the pre Saxon inhabitants of Britain circulated in England

*Civic Ritual and Drama* ,2023-04-12 Late medieval and renaissance cities though powerful communities jealous of their own jurisdiction were constantly negotiating their relationships with other secular and religious authorities The seven essays in this collection treat various aspects of civic display and pageantry during the fifteenth and sixteenth centuries The overwhelming sense one receives is that the solemn pomps were essentially about power how to get it display it share it and retain it Each paper demonstrates how through ceremony and symbol municipalities sought to fashion their own corporate self image in order to establish the limits of their authority in relationship to the countervailing powers surrounding them The essays are concerned with the period before the ever widening impact of the Reformation and the intellectual and political revolutions it spawned had reached the level of civic pageantry In the varied rituals considered here we can see reflected the highly sophisticated minds of their creators using the symbolic landscape of their religious and cultural past in important acts of corporate self fashioning **Partonopeus de Blois** Penny Eley,2011 First book length treatment of a fascinating medieval French romance underlining its influence in the genre Partonopeus de Blois is one of the most important works of twelfth century French fiction it shaped the development of romance as a genre gave rise to adaptations in several other medieval languages and even an opera Massenet s Esclarmonde However partly because of its complicated transmission history and partly due to the fact that it has been overshadowed by the works of Chr tien de Troyes it has been unjustly neglected This firstfull length study of the romance brings together literary historical and manuscript studies to explore its making as it evolved through seven medieval editions the earliest of which probably predated most of Chr tien s romances The book s thematic analyses show how the Partonopeus poet applied established techniques of rewriting to a wide range of classical vernacular and Celtic sources combining this literary fusion with political subtexts to create a new and influential model of romance composition Detailed studies of the Continuation reveal more ambitious experimentation by the

original author as well as the activities of a series of editors who continued to modify the text for over a century A final discussion of patronage proposes a new reading of the poem s distinct narratorial interventions on women and love and suggests a link between Partonopeus and a disturbing episode in the history of Blois Penny Eley is Professor of Medieval French at the University of Sheffield     **The Twelfth-Century Renaissance** R.N. Swanson,1999-09-11 This volume surveys the wide range of cultural and intellectual changes in western Europe in the period 1050 1250 The Twelfth Century Renaissance first establishes the broader context for the changes and introduces the debate on the validity of the term Renaissance as a label for the period Summarizing current scholarship without imposing a particular interpretation of the issues the book provides an accessible introduction to a vibrant and vital period in Europe s cultural and intellectual history

**French Arthurian Romance: Le chevalier as deus espees** Paul Vincent Rockwell,2006 First modern critical edition of an important Arthurian romance with facing translation     Essays in Honor of Norris J. Lacy Keith Busby,Catherine M. Jones,2000 The essays in this volume reflect to a large degree the scholarly interests of the honorand Arthurian romance the fabliaux and Villon just to mention the principal ones Over the years Norris Lacy s contribution to and influence on the study of Old French literature has been practically incalculable     **The Medieval Translator** Jacqueline Jenkins,Olivier Bertrand,2007 The documents examined here each bear witness to the transformations they have undergone when changing language style or period they changed audience The richness of the domains covered the highly technical analysis and the consideration given to questioning modern translation techniques illustrate the remarkable vitality of current studies relating to the multiple aspects of the translation of medieval documents French and English text     **Translating Byzantium**

    Megan E. Moore,2005     Belgisch tijdschrift voor filologie en geschiedenis ,2005     *The Adventures of the Holy Grail* Andrea M. L. Williams,2001 La Queste del Saint Graal is one of the best known and most important of the medieval Grail Romances being the first text to portray the character of Galahad the perfect knight and the earliest extant version of the tale to attempt to fuse the dual tradition associated with the Grail pseudo Celtic and Christian However it is often considered a difficult text containing passages of dense metaphor and a seemingly disjointed plot This study explains the link between metaphor and structure within the text by means of detailed analysis of certain key sections of the narrative showing how the author has carefully constructed a hierarchy of characters What also emerges is that the author places the reader in a position analogous to that of the questing knights struggling to understand the adventures with which they are presented and able to do so insofar as they have grasped the symbolic significance of earlier events in the story The literary technique of structuring a text by means of metaphor is employed not only in La Queste del Saint Graal but is characteristic of much medieval narrative thus this analysis has implications for the interpretation of other examples of the genre     **Nottingham French Studies** Lewis G.
