The Medusa Frequency:

The Medusa Frequency Russell Hoban, 2002-10-07 An inexplicable message flashed onto the screen of his Apple II computer at 3 a.m. heralds the beginning of a startling quest for frustrated author Herman Orff. Taking up the offer of a cure for writer's block leads him to those places in your head that you can't get to on your own and plunges him into a semi-dreamland inhabited by a bizarre combination of characters from myth and reality: the talking head of Orpheus, a lost love, the young girl of Vermeer's famous portrait and a frequency of Medusas. **The Medusa Frequency** Russell Hoban, 1988

The Medusa Frequency Russell Hoban, 2005 Herman tries to break his writer's block by connecting to the electronic brain of his Apple computer. This begins some curious interchanges that create strange visions for Herman. Their conversations give him a clear understanding of his past, the true import of a book and of what it is to human.

Explorations of Consciousness in Contemporary Fiction Grzegorz Maziarczyk, Joanna Klara Teske, 2017-07-20 Explorations of Consciousness in Contemporary Fiction is a collection of essays examining the potential of the contemporary English language novel to represent and inquire into various aspects of the human mind. Grounded in contemporary literary theory as well as consciousness studies, the essays consider both narrative techniques by means of which writers attempt to render various states of consciousness such as multimodality in digital fiction or experimental typography in post-traumatic narratives and novelistic interpretations of issues currently being investigated by neurobiologists, cognitive scientists and philosophers of the mind such as the adaptive value of consciousness or the process of self-integration by means of self-narration. The volume thus offers critical reflection upon the novel's cognitive accomplishment in this challenging area. Contributors are Nathan D. Frank, Judit Friedrich, Justyna Galant, Marta Komsta, Peter Kristof Makai, Ajit Paul Mangat, Grzegorz Maziarczyk, James McAdams, Daniel Panka, Barbara Puschmann, Nalenz, Joanna Klara Teske, Lloyd Issac Vayo, Dóra Vecserny, Sylwia Wilczewska. **Culture**, 1991. *Russell Hoban* Graeme Wend-Walker, 2025-09-24 Spanning more than half a century, Russell Hoban's celebrated literary career won him critical accolades and legions of admirers across multiple genres. Many know him from the groundbreaking masterpiece *Riddley Walker* with its twelve-year-old protagonist contemplating what the idea of us might be from amidst the ruins of civilization. Others know Hoban from the genre-defying *The Mouse and His Child* or from idiosyncratic novels of floundering Londoners. Still others fondly recall Frances the Badger's refusal to go to bed or share Emmet Otter with their children at Christmas. This book, the first consideration of Russell Hoban's literary career as a whole, explores what binds these seemingly disparate works together. Discovering unexpected patterns between books written from what one character describes as a perpetual state of surprise, this critical study also draws on Hoban's biography from his formation as an artist under the influence of jazz in New York to the upheaval of his self-reinvention as a writer as it offers its own reflection on what the idea of Russell Hoban might be. **Orpheus and Eurydice in Myth, History, and Analytical Psychology** Terence Dawson, 2025-02-25 This fascinating study shows how the minor Greek story

of Orpheus and Eurydice came to have a more persistent and varied impact on Western culture than any other Greek myth In the last 2 000 years it has captivated the imagination of successive ages Writers and other artists have turned to it to explore unexpectedly diverse concerns from classical philosophy through Christian values to challenges involving individual psychology and societal well being Dawson s study of the mythic imagination traces how these concerns unfold in poems plays novels films paintings operas ballets and sculptures It charts a history of responses to the experience of loss and longing and the need to grow in self awareness And it illustrates how responses to this myth anticipate many of the claims associated with analytical psychology This book will be of interest to analysts scholars and students working with Jung s ideas and to all those interested in adaptations of myth and the implications they harbour *The count of Monte Cristo, revised by H.
